From the Director's Desk

Greetings Arizona Sportsmen and Women,

It is my pleasure this year to introduce to you the 2009–10 Arizona Hunting and Trapping Regulations. We wish you success and enjoyment in your upcoming hunts and other wildlife recreation pursuits.

As we look to the future, there are a number of challenges facing wildlife and our outdoor heritage. These include such issues as planning for wildlife needs as Arizona's human population continues to grow, reconnecting people (especially youngsters) with the outdoors as we become increasingly urbanized, recruiting and retaining hunters and anglers to carry on our outdoor heritage, finding alternative funding sources to ensure sustainable conservation efforts, and mobilizing the public's passion for wildlife to support those efforts.

Success in dealing with these issues requires a focus that goes far beyond any single agency's mission – it will require ever broader and more effective partnerships. Partnerships make for a more coordinated focus, a greater mobilization of resources, and enhanced long-term relationships that facilitate getting things done. And the list of things that need to be done keeps growing.

The Arizona Game and Fish Department has been actively engaged in many notable partnership efforts. Just a few examples include:

- Working on habitat improvement projects with sportsmen's groups, public and private landowners, and other federal, state and local entities.
- Collaboration on wildlife habitat connectivity research and activities with a variety of government agencies and nonprofit groups.
- Working on public access issues with private landowners, sportsmen's groups and federal, state and local agencies.
- Partnering on hunting camps, fishing clinics, outdoor skills programs and wildlife workshops with sportsmen's and conservation groups.
- Coordination on urban wildlife issues with local governments and homeowners associations.

Arizona's wildlife conservation future will require a powerful and nontraditional coalition of partnerships at

all levels of government and across the full spectrum of nongovernmental organizations. That coalition must both leverage and broaden a public passion for wildlife that threatens to wither under the impact of the distractions of urbanization and the digital age.

Individuals play an important role in the partnership formula. I ask you, our valued hunting constituents, to share your experiences with relatives, friends and neighbors. Consider being a mentor to someone who is interested in hunting and the outdoors but doesn't know where to start. If you will share such remarkable experiences with the uninitiated, they too might come to understand, appreciate, and maybe even emulate, the passion we all feel for our outdoor lifestyle. And please share with them the fact that you and your fellow hunters, as sportsmen and conservationists, remain the primary source of revenue to support wildlife conservation in North America for the past 100 years.

We look forward to working with our partners to ensure there will be healthy, sustainable wildlife resources for all citizens to enjoy for generations to come. Arizona's sportsmen and women are her true conservationists.

New Pheasant Deadline The deadline to submit hunt permit-tag applications for pheasant is 7 p.m. MST, June 9, 2009. Pheasant hunts are now included in the regular big game draw.

Hunt Guidelines Review Here is your chance to comment on how the Department sets hunts. Attend a meeting in your area. For additional information, including meeting times and locations, see page 11.

Legalities of Picking Up Wildlife Parts Contact the Arizona Game and Fish Department prior to picking up wildlife parts found afield (other than shed antlers). Arizona law requires evidence of legality when possessing or transporting wildlife carcasses or their parts.

Apprentice License Resident licensed hunters are able to obtain a free Apprentice Hunting License, valid for two days, for use when mentoring a new hunter. This affords new hunters the opportunity to "try before you buy," under the supervision of a licensed hunter. The license is not valid for big game. For more information, see page 12 or visit www.azgfd.gov.

Javelina Bonus Point Application Although all fall 2009 javelina hunts are for Juniors Only seasons, the bonus point only hunt number is available to all applicants. The bonus point number is 5000 as listed in the youth section on page 27 and in the big game section on page 45.

PDF Draw Application Form A new feature has been added to the downloadable paper hunt permit-tag application form found on the Department's Web site (www.azgfd.gov/draw). The Adobe Reader PDF form will allow you to fill out the application form on your computer using your keyboard. Once the form has been filled out, it must be printed, signed and submitted by mail or delivery to any Department office. The form can also be printed from your computer and then filled out using an ink pen. Remember, the online draw application process has been indefinitely suspended and is not available to apply for the draw. The use of paper applications is the only method available to enter the draw.

U.S. Forest Service Travel Management Information All National Forests in Arizona and throughout the United States are currently completing new travel management rules and policies that are scheduled to be in place by September 2009. Any hunts that occur after that time may be impacted by these changes. The rule and policy changes are meant to more effectively manage motorized travel on National Forests. Prior to the National Forests implementing any changes, they will be providing Travel Management Maps free of charge that can be picked up at U.S. Forest Service offices. Possible changes may include cross-country travel with a motorized vehicle to retrieve downed big game animals, closing of some existing roads and designating areas for motorized camping. Before your hunt, it's recommended that you contact the U.S. Forest Service for the area you plan to hunt to determine what changes, if any, have been implemented.

Getting Started Checklist

Welcome to hunting in Arizona. If you don't know where you want to hunt, what you need, or even what you can hunt in Arizona, this section is for you. It is designed to help NEW hunters get started. Following is some basic information you should consider while planning your hunt. The best way for all hunters to prepare themselves to hunt in Arizona is to take a Department-sponsored hunter education course (see page 32).

❑ Step 1. Where to Start

1. What animal(s) can you hunt?

- Small game: cottontail rabbit, tree squirrel, migratory game birds, and upland game birds like quail.
- Big game: black bear, bighorn sheep, buffalo, deer (mule and white-tailed), elk, javelina, mountain lion, pronghorn antelope, and turkey.
- Predator/furbearer: coyotes, skunks, foxes, raccoons, bobcat, ringtail, weasel, and badgers.
- Other birds and mammals.

2. Do you have a hunting license?

To hunt in Arizona, a license is required. Check out page 14 for a list of our hunting permit and license fees. You can purchase licenses, tags, and/or stamps from any of our 340 license dealers (information is online at www.azgfd.gov), or Department offices statewide (see page 3 for office locations). For children ages 10-17, see Youth Opportunities, page 21.

3. Did you validate your license?

You must first sign your license. For some species you must also purchase a stamp or stamp privilege for the license to be valid. You will need a tag in addition to a valid license to hunt big game, sandhill cranes, and pheasants. You must also sign all tags before going afield for them to be valid.

❑ Step 2. Where/When to Hunt

1. Where do you want to hunt?

Arizona is divided into Game Management Units (GMU or unit) composed of state, federal, military, and private land. Review the GMU maps and boundary descriptions (pages 77-83), and the "Where you can hunt section" (page 84) for more information.

2. When do you want to hunt?

There are several different seasons in which you can hunt a species. Go to individual species to determine their seasons.

❑ Step 3. "To Apply or not to Apply?"

1. Don't Apply.

For most small game species, and all predator/furbearer and other birds and mammals you simply need a license and any required validations (for example: stamps) to hunt.

There are also several big game species that you may pursue simply by purchasing an over-the-counter nonpermit-tag in addition to your license. These hunts include archery turkey, mountain lion, fall bear, some archery deer and elk. Over-the-counter archery deer, mountain lion, buffalo, bear and bighorn sheep have mandatory reporting requirements, so check the information on the corresponding Commission Order.

2. Apply.

Permits for most big game species, sandhill crane, and pheasant are issued through a hunt drawing. If interested in hunting any of these species, you must apply for a tag in a drawing; refer to page 14 in this booklet or the appropriate supplement for specific information. The sample application form on page 18 will help you to apply for both a tag and license. Follow the instructions on the sample form and DON'T forget to include your correct fee(s).

❑ Step 4. Do Your Homework

1. Common violations

Before you go hunting we recommend you read pages 94-95 to be aware of the most common violations. Also, take a look at the Arizona laws and rules beginning on page 98 to learn what you can and can't do in Arizona. If you are witness to a violation please call our Operation Game Thief hotline at 1-800-352-0700 to report the violation. You may be eligible for a cash reward.

2. Care/transport information

Before you go in the field, review our laws and rules to understand requirements to possess and transport wildlife after your hunt. Generally, you need to keep your license on your person and your tag affixed to your carcass at all times during transport. The Department has information available to properly care for your wildlife (see page 3 for regional office locations and phone numbers).

3. You're on your way!

These are just some basic steps to help you start your first hunt. Please read through the rest of the hunting and trapping regulations to better familiarize yourself with hunting in Arizona. If this section fails to answer your questions, contact any Arizona Game and Fish office or visit our Web site www.azgfd.gov.

Definitions

Big Game: Any of the following species: mule deer, white-tailed deer, pronghorn antelope, elk, turkey, javelina, bear, bighorn sheep, buffalo and mountain lion. All species require a hunt permit-tag, except for archery turkey, juniors turkey, fall bear, mountain lion and some archery deer; these species require a nonpermit-tag.

Bonus Point: An accumulated credit that authorizes the Department to issue a Big Game Drawing applicant additional computer-generated random numbers during a draw.

Commission Order: A document adopted by the Commission that does any or all of the following: open, close, or alter seasons and open areas for taking wildlife; specify wildlife that may or may not be taken; set bag or possession limits for wildlife; or set the number of permits available for a hunt.

Department ID: A number used to identify the hunter by name and address, and to accumulate bonus points. A hunter may designate their social security number or a Department issued, computer-generated number.

Game Management Unit: An area established by the Commission for management purposes, commonly referred to as GMU or Unit (see maps on pages 77-83, and boundary definitions on page 103).

The North American Model of Wildlife Conservation

The untold story

The North American Model of Wildlife Conservation is the world's most successful. No other continent retains as close to a complete compliment of native wildlife species. While other countries struggle to conserve the little they have left, we enjoy great abundance and diversity of native wildlife.

This is due, in large part, to forward-thinking early conservationists who saw the need to preserve wildlife and their habitats. Their efforts were the source of the North American Model of Wildlife Conservation, which strives to sustain wildlife species and habitats through sound science and active management.

Sportsmen's Role in Wildlife Conservation

Hunting and angling are the cornerstones of the North American Model of Wildlife Conservation. These activities continue to be the primary source of funding for conservation efforts in North America. Through a 10 percent to 12 percent excise tax on hunting, angling and shooting sports equipment, hunters and anglers have generated more than \$10 billion toward wildlife conservation since 1937.

Though past conservation efforts have focused on hunted species, non-hunted species reap the rewards as well. Protecting wetlands for ducks, forests for deer and grasslands for pronghorn have saved countless non-hunted species from peril.

Regardless of whether one chooses to actively participate in hunting or angling, people interested in wildlife and its future should understand the conservation role sportsmen play.

What if Hunting Ends?

Hunters and anglers actively support wildlife conservation through tangible actions such as buying licenses and paying taxes on hunting and fishing equipment.

Why are hunters and anglers so willing to support conservation through their pocketbooks? Because people place added value on — and are willing to pay for — what they can use.

In some states, the number of hunting and fishing licenses sold has remained stable in recent years. But given the rate of population growth, particularly in Western states, the percentage of people participating in hunting and fishing is actually decreasing.

There is no alternative funding system in place to replace the potential lost funds for conservation. If hunting ends, funding for wildlife conservation is in peril.

To learn more about hunting or participate in the wildlife conservation movement that has been led by hunters for more than a century, visit any Arizona Game and Fish Department office or visit www.azgfd.gov/hunting.

Managing today for wildlife tomorrow.

Arizona Sportsmen's Contributions*

Little to no state general fund monies are used for wildlife conservation in Arizona (general taxpayers usually do not pay for wildlife conservation). The state's sportsmen, however, do contribute:

- Arizona hunters and anglers spend \$1.3 billion a year.
- Their spending directly supports 21,000 jobs and generates \$124 million in state and local taxes. This especially benefits rural communities.
- Sportsmen support nearly twice as many jobs in Arizona as Raytheon, one of the state's largest employers (21,000 jobs vs. 11,000 jobs).
- Annual spending by Arizona sportsmen is nearly three times more than the combined revenues of The Go Daddy Group, Sprouts Farmers Market and Cold Stone Creamery, which are some of the state's fastest growing companies (\$1.3 billion vs. \$481 million).
- The economic stimulus of hunting and fishing equates to \$3.8 million a day being pumped into the state's economy.

ARIZONA CORE CONCEPTS OF THE NORTH AMERICAN MODEL OF WILDLIFE CONSERVATION

Wildlife is Held in the Public Trust

The public trust doctrine means that wildlife belongs to everyone. Through shared ownership and responsibility, opportunity is provided to all.

Regulated Commerce in Wildlife

Early laws banning commercial hunting and the sale of meat and hides ensure sustainability through regulation of harvest and regulating commerce of wildlife parts.

Hunting and Angling Laws are Created Through Public Process

Hunting seasons, harvest limits and penalties imposed for violations are established through laws and regulations. Everyone has the opportunity to shape the laws and regulations applied in wildlife conservation.

Hunting and Angling Opportunity for All

Opportunity to participate in hunting, angling and wildlife conservation is guaranteed for all in good standing, not by social status or

privilege, financial capacity or land ownership. This concept ensures a broad base of financial support and advocacy for research, monitoring, habitat conservation and law enforcement.

Hunters and Anglers Fund Conservation

Hunting and fishing license sales and excise taxes on hunting and fishing equipment pay for management of all wildlife, including wildlife species that are not hunted.

Wildlife is an International Resource

Proper stewardship of wildlife and habitats is both a source of national pride and an opportunity to cooperate with other nations with whom we share natural resources. Cooperative management of migrating waterfowl is one example of successful international collaboration.

Science is the Basis for Wildlife Policy

The limited use of wildlife as a renewable natural resource is based on sound science. We learn as we go, adapting our management strategies based on monitoring to achieve sustainability.

"WE ABUSE LAND BECAUSE WE REGARD IT AS A COMMODITY BELONGING TO US. WHEN WE SEE LAND AS A COMMUNITY TO WHICH WE BELONG, WE MAY BEGIN TO USE IT WITH LOVE AND RESPECT."

ALDO LEOPOLD

Sportsmen ethics and responsibilities

Please observe the following when using private, State Trust or public lands:

- Do not drive on wet and muddy roads where damage to the road is likely.
- You may not operate a motorized vehicle cross-country on State Trust land except for the sole purpose of retrieving downed big game (A.R.S. 17-454).
- Do not hunt near livestock waters when livestock is nearby; harassment of livestock is illegal.
- Treat the lands as if they were yours; any damages to the land or vegetation can take decades to recover! Certain damages to the lands or improvements are subject to prosecution (A.R.S. 13-1601 through 1605).
- It is misdemeanor trespass if you cross private property that is posted no trespass (A.R.S. 13-1501 through 1508).
- It is illegal to camp within 1/4 mile of livestock and/or wildlife watering sources (A.R.S. 17-308).
- Remember, you must have a valid hunting or fishing license and be actively hunting or fishing, or have obtained a use permit from the State Land Department, to legally use State Trust lands unless using a public easement (A.R.S. 37-501, 502; R12-5-533D).
- Be respectful of others. They possess the same rights as you to use the lands.

If you observe vandalism violations, please call 1 (800) VANDALS. To report hunt violations, call the Operation Game Thief Hotline 1 (800) 352-0700; all calls are confidential. To learn more about the Arizona Game and Fish Department's Heritage Access Program or to get involved, call (623) 236-7624.

Ethical hunting is everyone's business

Tree stands and blinds near waterholes can be exciting places to encounter wildlife and are legal tools to aid in your hunting experience and enjoyment. However, if you have ever hunted from a tree stand or blind on a waterhole, you've probably encountered other hunters wanting to hunt the same area. You may even have had a negative encounter with another hunter when deciding who was going to stay and hunt. Here are some important tips, ethically speaking, to keep in mind when planning to hunt around a waterhole on public land:

- Waterholes on public and state lands belong to everyone, and everyone should enjoy free and equal access.
- Responsible hunters should respect other hunters' privileges. They should leave the area if another hunter gets to a waterhole first.
- Ethically responsible hunters will always yield to another hunter who has reached the waterhole first on any given morning or evening during the hunt.
- Simply posting a sign/notice on or near a waterhole does not give anyone the exclusive right to hunt that waterhole; the hunter actually needs to be present.
- Hanging a tree stand near a waterhole does not entitle a person to exclusive hunting rights to that waterhole. It may be unlawful to leave tree stands hanging or blinds set for extended periods of time. They may be considered abandoned property and subject to seizure.

"First Come – First Served" is a common courtesy that should be used when more than one person wants to hunt the same area or waterhole, regardless of who has a tree stand or blind in the area. The Arizona Game and Fish Department reminds all hunters that confrontations in hunting situations can involve firearms and hot tempers. Whether you are in the city or next to a waterhole, any threats, intimidation, assault, or disorderly conduct can result in citations, arrests and/or jail time. Please do not allow yourself to get into a situation like that – ethical hunting is everyone's business.

Your Input Sought on Hunt Guidelines

Every two years, the Arizona Game and Fish Department reviews the existing hunt guidelines and provides recommendations to the Arizona Game and Fish Commission on how hunt structures and permit allocations should be developed. Hunt guidelines are the "recipes" used by wildlife managers as they formulate the annual hunt recommendations that the Commission acts on and results in the Commission Orders that authorize hunts in which sportsmen participate. This activity does not happen in a vacuum; the Commission and Department are interested in your opinions and ideas. The public process used by the Department to develop these guidelines contributed to a Showcase in Excellence Award in 2008 from the Arizona Quality Alliance.

When hunters have a chance to go afield, this is the experience on which many individuals ground their passion for wildlife. Most hunters can vividly recall their first big game hunt with incredible detail, including the friends and family they were with and the many intangible aspects of the experience that made it special. That is what makes hunters want to volunteer their own precious free time to work on projects that improve habitat, rebuild needed structures like fences, or improve water distribution. This is also why these

same individuals get organized to raise private funds to benefit wildlife or to support legislation that may be vital to wildlife management.

The Commission and Department want to foster this passion by removing barriers that get in the way of getting hunters, new and old, into the field. But we want to do that in such a way that we do not compromise the viability of our wildlife or the experience. And we want to do it so that we can accommodate the many varied desires of our hunting and nonhunting public. Wildlife is managed in the public trust for all Arizonans; this is how the North American Model of Wildlife Conservation is perpetuated.

This is your opportunity to get involved. The Department needs your thoughts and your ideas on how to meet the demand for hunting opportunities. If you have ideas, please email them to azgamebranch@azgfd.gov or mail them to Hunt Guidelines, Arizona Game and Fish Department, 5000 W. Carefree Highway, Phoenix, AZ 85086 throughout the month of May. The Department will be formulating revisions to the existing hunt guidelines, which you can locate at www.azgfd.gov/pdfs/h_f/huntingrecommendations/2009/Hunt-Guidelines.pdf. When we have the draft revisions completed, we will be hosting public meetings to discuss the new revisions.

We will use the input from these meetings to refine our recommendations, which will be presented to the Commission for approval at their meeting in Phoenix Sept. 11–12.

Please help us make Arizona's hunting experiences the best in the nation.

License Information

Who Can Go?

Everyone needs a license to hunt wildlife in Arizona. You need in your possession a valid hunt or combination hunt and fish license, plus any required hunt permit-tags, nonpermit-tags, or stamps. Neither a Class H Three-Day Non-resident Hunting License nor an Apprentice Hunting License is valid for big game.

YOUNG HUNTERS – Anyone 14 years of age or older needs a license to hunt wildlife in Arizona. You need in your possession a valid hunt or combination hunt and fish license, plus any required hunt permit-tags, nonpermit-tags or stamps.

A person under 14 may hunt wildlife other than big game without a license only when accompanied by a properly licensed person 18 years or older. No more than two unlicensed children may accompany any license holder.

No one under the age of 14 may take big game without having completed a Hunter Education Course. No one under age 10 may hunt big game in Arizona. To hunt big game, anyone 10 to 13 years of age must have in their possession a valid hunt or combination hunt and fish license, a valid Hunter Education Course completion card, plus any required permit-tags, nonpermit-tags and stamps.

Where to Buy Licenses

Arizona hunting licenses can be obtained from license dealers throughout the state or from any Arizona Game and Fish Department office (see locations on page 3 of this booklet).

A list of license dealers can be found at www.azgfd.gov by selecting the license box on the home page.

If you are applying for a big game draw or bonus points, you may purchase your general hunt or combination hunt and fish license while you are entering your application for the draw. The license will not be issued and mailed until refunds and hunt permit-tags are mailed per the schedule on page 20. If you wish to use your license before the draw is complete, you must pre-purchase a license before applying. Although they are valid for a big game drawing application, Family Licenses, Super Conservation Licenses, and Child General Hunting and

Combination Licenses **may not be obtained through the draw**; these licenses must be purchased at Department offices.

Lifetime License Holders

If a lifetime license holder changes residency status from Arizona, the licensee must then purchase non-resident stamps, tags, and permits. A non-resident tag or stamp can accompany your lifetime resident license. If you are a lifetime license holder who has moved out of state, the 10 percent non-resident cap does not apply to you. The lifetime license will remain legal for the taking of all wildlife as permitted by law. Residency may be re-established after moving back to Arizona and meeting the required time period as defined below.

Residency Requirements

A resident is a person who has been a bona fide resident of the state of Arizona for six months immediately preceding the date of application for a license or a tag, or a member of the armed forces who has been stationed in Arizona for a period of 30 days immediately preceding the date of application for a license or a tag.

Arizona residents may purchase a resident license. All other individuals must purchase a non-resident license.

Three-Day Non-Resident License

A Class H, Three-Day Non-resident license, valid for the taking of small game, fur-bearing animals, predatory animals, nongame animals, nongame birds, upland game birds and migratory game birds, except ducks, geese and swans is available at all license dealers. This license is not valid for hunting big game nor is it valid when applying for big game hunts through the draw process.

Apprentice License

Resident licensed hunters are able to obtain a free Apprentice Hunting License, valid for two days, for use when mentoring a new hunter. This affords new hunters the opportunity to "try before you buy," under the supervision of a licensed hunter.

An apprentice hunting license is valid for two days when the apprentice is accompanied in the field by a mentor. An apprentice hunting

license is valid for the taking of small game, fur-bearing animals, predatory animals, nongame animals, nongame birds and upland game birds, and including stamps prescribed by the commission. An apprentice may be a resident or nonresident and may only be licensed pursuant to this paragraph once per calendar year. A mentor must be a bona fide resident of this state who is at least 18 years of age and must possess a class F, G, J, K, M or N license or a complimentary or lifetime license. A mentor may apply for no more than two apprentice hunting licenses per calendar year. When applying for an apprentice license, the mentor must name the person he or she will be taking afield. Consult A.R.S. 17-333 for more information.

Lost License or Tag Replacement

Lost licenses, hunt permit-tags and nonpermit-tags may be replaced for a \$4 fee at any Arizona Game and Fish Department license dealer. Consult R12-4-103 Duplicate Tags and Licenses for additional information. Stamps cannot be replaced, they must be repurchased.

Physically Challenged Hunters

Those hunters who are physically challenged may qualify for a Challenged Hunter Access/Mobility Permit (CHAMP). Consult R12-4-217 for a description of this permit. Contact any Arizona Game and Fish Department office for additional information and application.

Non-US Citizens Wanting to Hunt in Arizona

Pursuant to new regulations by the U.S. Bureau of Alcohol, Tobacco and Firearms (ATF), non-immigrant aliens who want to temporarily import firearms and/or ammunition into the United States for the allowable purpose of taking wildlife will need an ATF import permit and valid hunting license in possession at the time of entry/import into the United States. For further information or to make application for the import permit, contact ATF's Firearms and Explosives Import Branch at (202) 927-8320, or download an application from the ATF Web site at www.atf.treas.gov.

License Information

Tag Transfers

Under Arizona Revised Statutes and Arizona Game and Fish Commission Rules there are ways people can transfer big game tags to children.

A parent, grandparent or legal guardian may allow the parent's, grandparent's or guardian's minor child or minor grandchild to use the parent's, grandparent's or guardian's big game permit or tag to take big game pursuant to the following requirements:

- The minor child is 10 to 17 years old on the

date of transfer;

- The minor child has a valid hunting or combination license on the date of transfer;
- A minor child less than 14 years old has satisfactorily completed a department-approved hunter education course by the beginning date of the hunt;
- The parent or guardian must accompany the child in the field or, if a grandparent allows a minor grandchild to use the grandparent's permit or tag, the grandparent, parent or the child's guardian must accompany the child

in the field. In either case, the adult must be within 50 yards of the child when the animal is taken.

Once a tag is transferred, the original permittee may no longer use it.

A person may transfer his or her game tag for use by a child with a life threatening medical condition. Consult A.R.S. 17-332 for more information, or visit www.azgfd.gov.

Thank You Hunters and Recreational Shooters

Arizona's rich outdoor heritage is enjoyed by all – thanks to hunters like you, whose purchase of hunting and recreational shooting equipment supports wildlife management and habitat enhancement in the Grand Canyon State. When you purchase a rifle, ammunition, archery equipment, and other sporting gear, you pay a federal excise tax and import duties.

Since 1937, this money has been collected by the federal government and redistributed to the states using a

formula based on hunting license sales and the state's land area. In 2007, that meant over \$6.5 million for game management in Arizona. This money paid for game surveys, hunter education classes, wildlife water catchment construction, wildlife research and shooting range development and operations, among other projects.

Hunters like you are part of the largest and most successful wildlife conservation programs in the world... thank you.

Legalities of Picking Up Wildlife Parts

Contact the Arizona Game and Fish Department prior to picking up wildlife parts found afield (other than shed antlers). Arizona law requires evidence of legality when possessing or transporting wildlife carcasses or their parts.

The Draw

When the number of hunt permits for a species in a particular area must be limited to prevent over-harvest of wildlife, the Commission Order governing seasons for that species assigns a hunt number to a designated area, and a hunt permit-tag is required to take that species in that area. Hunt permit-tags are issued through a computerized random drawing. Big game tags not issued through the drawing process are nonpermit-tags. Nonpermit-tags may be purchased directly from Department offices or through license dealers.

Qualifications

Individuals wishing to participate in a drawing or to purchase bonus points must apply in writing using the Hunt Permit-Tag Application Form.

Each applicant must possess a valid license for the year in which the hunt will take place or possess a lifetime, pioneer or disabled veteran's license. Non-resident Three-Day Class H licenses may not be used in applying for big game hunt permit-tags. **Youth applying for big game hunts must be licensed.** Applicants not licensed for the year in which the hunt will take place must submit the information and fees required for a license on **each** paper application submitted. Only one license will be issued to you and you will receive a refund for the other license fees submitted. The license will not be mailed until refunds and hunt permit-tags are mailed per the schedule on page 20.

Applying For A Hunt

Paper applications for hunt permit-tags must be made on Hunt Permit-Tag Application Forms available at Department offices, Web site, and license dealers. Please use the current year's application form, that is **WHITE** in color. **Do not cut or alter application form.** Applications not prepared in a legible manner may be deemed not valid and shall be rejected as specified in R12-4-104(O). Use standard blue or black ink (no gel ink).

No more than four people may apply in one envelope. All applicants in a group must apply for the same hunt number(s) and in the same order of preference on the same form.

No person may submit more than one valid ap-

plication per genus of wildlife in any calendar year, except as specified in R12-4-104(L), when genera are drawn in multiple drawings; however the annual bag limit still applies.

No more than one genus may be included on each Hunt Permit-Tag Application Form. Use a separate form and envelope for each genus of wildlife you wish to hunt. You can list a general hunt as your first choice and another weapon type hunt for the same genus as another choice on the same application—just be sure they are in the same numerical series. Use only one application per genus, even if you are mixing weapon choices.

Only a single application and the correct fees must be included in one (1) envelope. More than one (1) application in an envelope may result in rejection of all applications.

Hunt Permit, Bonus Points Disclaimer

The issuance of any big game permit has no express or implied guarantee or warranty of hunter success. Any person holding a valid permit assumes the risk that circumstances beyond the control of the Arizona Game and Fish Department may prevent the permit holder from using the permit. In such situations, the Arizona Game and Fish Department disclaims any responsibility to reissue or replace a permit, to reinstate bonus points or to refund any fees, except under specific circumstances, such as activation of military or emergency personnel, as stated in R12-4-107(L).

Fees

When submitting paper applications, each applicant shall enclose the following fees:

1. The fee for the appropriate hunt permit-tag, which includes the permit application fee.
2. Fee for a hunting license, if a license is requested. Be sure to enclose license fees on **each** application, if required, for each person who is applying on the application for a hunting license. Only one license will be issued per person.
3. **Discounted hunt permit-tag fees are for "Juniors-Only" designated hunts. A youth must pay the higher fee unless applying only for "Juniors-Only" hunts.**

Each payment enclosed with a hunt permit-tag application shall be made by certified check, cashier's check, money order, or personal check or draft payable to the Arizona Game and Fish Department. Cash will not be accepted and will result in rejection.

One personal check or money order can cover all fees for each application.

The permit and license fees are specified in the fee schedule on pages 14–15. The hunt permit-tag fees on page 14 include the non-refundable application fee.

A \$25 fee will be charged for each returned or dishonored check.

Submitting Applications

Applications (except first-come, sandhill crane, and raptor applications) may be hand-delivered to Department offices in Phoenix, Mesa, Tucson, Flagstaff, Pinetop, Kingman or Yuma. Mailed applications must be sent only to the Department's Phoenix Office at P.O. Box 74020, Phoenix, AZ 85087-1052. On deadline days, Department business offices close at 5:00 p.m. (MST), but applications can be delivered to drop boxes until 7:00 p.m., (MST). Drop boxes are locked promptly at 7:00 p.m., (MST). All applications must be received by the Department before the deadline. Deadlines for submission are specified in the Hunt Permit-Tag Application Schedule on page 20. Postmarks don't count.

Complete and proper preparation of an application is the sole responsibility of the applicant.

What Happens To My Application?

Any application not properly prepared, submitted with insufficient fees or one that is illegible is not valid and will be rejected.

If there is an error that will result in the rejection of an application and the application is received by the Department on or before Thursday, May 28, 2009, we will make three attempts within a 24-hour period to notify you by telephone if a phone number is provided. If we are able to contact you by phone and our customer service representatives can correct the application at that time, they will do so and enter the application in the Draw. If an error cannot

be corrected by phone, we will still attempt to notify you of the error and advise you to re-submit your application. The applicants may then prepare a new Hunt Permit-Tag Application Form, include the appropriate fees and re-apply by the scheduled deadline date.

If any applicant in a group is rejected for any reason, all other applicants in that group will also be rejected and no bonus points will be awarded.

No hunt permit-tag will be issued to anyone in a group if there are not sufficient hunt permit-tags available for all applicants in that group.

Hunt permit-tags will be mailed to each successful applicant.

What If I'm Not Drawn?

Please use one of the methods (telephone or Internet) described on page 5 to access draw results. These methods of access shall serve as the official notification of draw results.

Over-payments and hunt permit-tag fees received with unsuccessful applications will be returned to applicant "A," as shown on the Hunt Permit-Tag Application Form. Application and license fees will not be refunded. You will not be issued or charged for more than one license.

If you or a member of your group elected to donate your fees or a portion thereof, the do-

nation will not be refunded. A hunting license is required to apply in a drawing. If an application is rejected and a license has been requested, the license will not be issued.

Unsuccessful, valid applications will be awarded bonus points.

Big game hunt permit-tags remaining after the drawing will be issued on a first-come, first-served basis as specified in the hunt permit-tag application schedule on page 20.

Purchasing A Bonus Point Only

In the event you do not wish to participate in a big game drawing for deer, javelina, bighorn sheep or buffalo, but still wish to accumulate bonus points for these genera, you may "purchase a bonus point."

When completing your application, you must choose the bonus point hunt number established for that genus as your first choice. A bonus point hunt number is established within each applicable Commission Order. If you choose this hunt number, you may not choose any other hunt number on your application. **If the bonus point hunt number is any choice other than the first choice or any other hunt numbers appear on the application, your application will be rejected.** You may purchase only one bonus point per genus per drawing.

To purchase a bonus point, the individual must be 10 years old by the deadline date

as specified in the hunt permit-tag application schedule on page 20.

To purchase a bonus point, you must have previously purchased a hunting license or apply for a hunting license through the draw for the year in which the hunt will take place. You must also include the application fee per applicant. If applying for a bonus point, your application will **NOT** be entered into the draw and you will not receive a refund on the license fee or the application fee. Do not include the fee for the hunt permit-tag for the genus in which you are applying for the bonus point. **A bonus point purchase costs you only the license fee (if needed) and the \$7.50 application fee per applicant.**

If applying for more than one species for bonus points, you must complete a separate application for each species. Only a single application and the correct fees may be included in one envelope.

If you apply for a bonus point only using the established bonus point hunt number, you may **NOT** submit another application for the same genus. To do so will cause both applications to be rejected as duplicate applications.

All applicants in a group must apply for the same established bonus point hunt number. The application will not be included in the random number drawing and the individual(s) on the application will each receive a bonus point for that genus.

How to Apply for the Draw

Completing Your Paper Hunt Permit-tag Application Form

In order to participate in the draw you must correctly fill out and sign a paper hunt permit-tag application form and submit it by mail or drop it off to any of the seven Arizona Game and Fish Department offices along with a check or money order for the correct amount. Paper application forms are available at all Department offices, more than 300 license dealers statewide, and as a downloadable PDF electronic document from the Department's Web site at www.azgfd.gov/draw. A list of dealers can be found on the Department's Web site. The use of the PDF form requires that the free Adobe Reader software be installed on your computer. The PDF form can be printed from your computer and then filled out using an ink pen or you can fill it out on your computer using your keyboard (this form does not alert you if an error is made). Once the form has been correctly filled out, it must be printed, signed and submitted by mail or dropped off at the Department along with a check or money order for the correct amount. There is no online draw application process – only paper application forms mailed or dropped off at a Department office are eligible for entry into the draw.

R12-4-104 and R12-4-114 explain application and drawing procedures in detail. Complete and proper preparation of an application is the sole responsibility of the applicant. If any applicant in the group fails to complete any required portion of the application, all applicants in the group will be rejected.

Numbered paragraphs correspond to numbers circled on the SAMPLE form, use it to assist you in completing your form, which can be found online, at any license dealer or Department office.

1 Enter the hunt number(s) of the hunt(s) in which you wish to participate. The hunt number will indicate the genus (deer, turkey, etc.) and area you want to hunt. **Do not use the Game Management Unit Number.** Hunt numbers are listed in the far left column of each Commission Order. Deer hunts are in the 1000 series, turkey hunts are in the 4000 series, etc. All hunt numbers on an application must be in the same series. YOU CANNOT MIX

4 Check the appropriate resident or non-resident box. Resident means a person who has been a bona fide resident of the state of Arizona for six months immediately preceding the date of application, or a member of the Armed Forces who has been stationed in Arizona for a period of 30 days immediately preceding the date of application for a license.

6 Enter your Department I.D. Number (formerly called Sportsman I.D.). This number is for those individuals who choose to use a Department issued I.D. Number instead of a social security number to track bonus points or for non-U.S. citizens. This is a permanent number and is to be used on all hunt applications. Your I.D. Number (if different from SSN) is vital to track your bonus points and to ensure that you receive the proper credits. Using a different number may result in your not receiving proper bonus point credits. An I.D. Number may be obtained by calling the Department. You **must** still provide a valid SSN even if you provide a valid Department I.D. Number. See #3.

7 Enter your correct full name (last name first), home mailing address, city, state and zip code.

8 The Department will make three attempts within a 24-hour period to notify you of errors that will result in the rejection of your application if the application

is received on or before Thursday, May 28, 2009. If you wish to participate in this service, please list a telephone number where you can be reached. You are not required to enter your telephone number.

9 Each individual applying, or an appointed individual, must sign the appropriate application section.

that you have been a resident of Arizona. (See page 18, Completing Your Hunt Permit-Tag Application Form, # 4, to determine if you qualify.) No entry is required here for a non-resident applicant.

16 Check the box next to the license type which you wish to purchase. **If you are requesting a license on more than one application, you must specify the same class of license on each application and include the license fee with each application. You will not be issued or charged for more than one license.** If you are not licensed for the year in which the hunt will occur, you must complete the License Application Form for each genus applied for and include payment for a license with each application. If you are drawn for more than one genus, only one license will be issued in your name. If you are not drawn, you will be refunded only the hunt permit-tag fee. You must possess or purchase a license to participate in a drawing or to purchase a bonus point. No refunds will be issued for license or application fees if you apply in a drawing and are unsuccessful in the drawing. **If you do not check the box next to the license type you wish to purchase, your application will be rejected.**

YOUTH

OPPORTUNITIES

Welcome to the Youth Opportunity section in the Arizona Game and Fish Department's Hunting and Trapping Regulations. This section is designed to teach youth what they need to know about hunting: how to get started; what hunts are available for youth; and what licenses are required. We also included some fun stuff just for kids. We want to make hunting an enjoyable experience for Arizona's youth. For more information visit www.azgfd.gov.

In this section:

- ✓ Youth hunting opportunities..... 22
- ✓ Small Game Camps, Scholastic Clays and Archery..... 22
- ✓ Word Jumble..... 23
- ✓ Shooting Ranges..... 23
- ✓ Specific "Juniors-Only" hunts.....24-29
- ✓ "What is a junior?"..... 30
- ✓ License and tag requirements..... 30
- ✓ Age/Eligibility chart..... 31

Arizona provides many opportunities for youth to get involved in hunting. There are specific Juniors-Only hunts, hunter education courses, small game camps, archery and sporting clays programs. You will find information about these opportunities in this section.

Special Youth Opportunities

Robbins Butte Dove Hunt

Robbins Butte Wildlife Area (RBWA) is about seven miles southwest of Buckeye and comprises over 1600 acres. RBWA was purchased for its potential as waterfowl habitat. Three ponds were built in 1952 and by 1957 an estimated 30,000 ducks used these ponds. However, increased demand for agricultural water coupled with invasion of salt cedar trees led to dramatic waterfowl declines by 1960.

In response, the Department purchased the adjacent Black Butte Farm to expand RBWA. This land contained some of the last pristine honey mesquite bosque remaining along the lower Gila River. This acquisition protected the bosque, and provided cultivated grain crops for small game. The combination of wildlife food crops, natural foods and nesting habitat now attracts a combined average of 5,000 breeding white-winged and mourning doves each year.

A portion of RBWA is managed strictly for junior hunters. The "juniors only" hunt in early September gives hunters a chance to pursue doves without adult competition. Hunters under the age of 14 may hunt without a license when accompanied by a licensed adult (each adult can bring up to two young hunters). Shooting locations are assigned on a first-come, first-served basis. Participants must check in prior to hunting and check out when finished. Plan to arrive by 4:30 a.m. for a safety briefing. Afterward, visit the check-in tables and enjoy a free breakfast provided by the Chandler Rod and Gun Club. Oh, and don't forget to bring plenty of shells. This area can produce lots of chances to fill your bag. Please refer to the current Dove and Band-tailed Pigeon Regulations for specific season dates.

Pheasant Hunt

Arizona's top hunter education graduates are randomly drawn each year for the AZGFD Youth Pheasant Hunt. While taking a hunter edu-

A dove hunt at Robbins Butte is one opportunity available to youth.

cation class instructors identify their top students and submit them for this random drawing conducted in December. About 500 kids are nominated each year and only 80 lucky hunters are drawn and invited to participate in an all expense paid youth pheasant hunt in Prescott Valley. The event is sponsored by the National Wild Turkey Federation and the Arizona Wildlife Conservation Council.

Young hunters shoot sporting clays and trap as well as hunt behind top quality pointing dogs that look for pheasants. It's an exciting moment when a cackling rooster pheasant takes flight in front of the young hunters.

A scrumptious lunch is provided for every one as well as a class on how to prepare rooster pheasants for the home table. This has proved to be a very positive event for both parents and young hunters. By attending Arizona's top-notch hunter education class maybe your young hunter might be one of the lucky ones drawn next year.

Small Game Camps, Scholastic Clays and Archery

Small Game Camps

The Arizona Game and Fish Department offers camps on hunting basics to individuals who are interested in hunting but may not know where to start. These hands-on workshops teach the skills necessary to successfully pursue the variety of small game found in Arizona. Both adults and youths are invited to participate. The camps include instruction and the opportunity to interact with experienced mentors and other camp participants. Attendees will learn information on firearm safety, hunting opportunities, game care, archery instruction and more. There will also be hands-on hunting opportunities. A schedule of upcoming camps will be announced at www.azgfd.gov/smallgamecamps.

Scholastic Clay Target Program (SCTP)

The Arizona Game and Fish Department Scholastic Clay Target Program is a team-based youth development program that uses the shotgun sports

to instill discipline, safety, teamwork, ethics, self-confidence and other life values. Team members can participate in any or all three clay target disciplines: trap, skeet and sporting clays. For more information, contact the Shooting Sports coordinator at (623) 236-7305 or visit www.azgfd.gov and select Outdoor Recreation then Shooting Sports.

Archery in the Schools Program (AIS)

The Arizona Game and Fish Department offers a popular Archery in the Schools Program based on a national physical education curriculum introduced in 2003. The core content covers archery, history, safety, techniques, equipment, mental concentration and self-improvement. In addition, the curriculum provides interesting and creative possibilities for integration with core content in social studies, mathematics, visual arts, history and English/language arts. The program provides school PE programs with training, equipment and curriculum, to introduce youth to archery. For more information, contact the Archery Education coordinator at (623) 236-7402.

Shooting Ranges

Shooting facilities provide a safe environment to practice for upcoming hunting seasons. Shooting ranges provide shooters with many benefits, including controlled settings, training and education. At a range, shooters at any skill level can practice, sight-in firearms, receive instruction and discover communities of like-minded enthusiasts.

The Where to Shoot Web site (www.wheretoshoot.org) provides easy access to target shooting and hunting facilities. Simply specify a state to view all ranges within that state, or narrow the search by area code or zip code.

The Arizona Game and Fish Department is providing this section on juniors-only hunting to highlight the hunts for which junior hunters (defined below) have exclusive application opportunity. Some of these hunts have reduced fees. But juniors are not only limited to these hunts. Juniors may apply for other season hunts (beginning on page 36), but must include the higher fees when applying. If a junior chooses to apply with an adult, they are not eligible to apply for the hunts listed in the juniors-only seasons.

Deer Notes:

- A Unit 12A (North Kaibab) Habitat Management Stamp is required for all Unit 12A (North Kaibab) deer hunters. Stamps are available at a cost of \$15.00 at all Arizona Game and Fish Department offices or wherever hunting licenses are sold. All 12A North Kaibab deer hunters shall have this stamp attached to their hunting license. Stamps cannot be obtained through the draw process. Successful Unit 12A (North Kaibab) firearms deer hunters must check out and personally present their deer for inspection at the Jacob Lake Checking Station in accordance with R12-4-308. A check station will not be operated during the Unit 12A (North Kaibab) CHAMP or archery deer seasons.
- The Buenos Aires, Cibola, Imperial, and Kofa National Wildlife Refuges are open to deer hunting as permitted by refuge regulations; all other Refuges are closed.
- The Fort Huachuca Army Garrison in Unit 35A is open to deer hunting only to properly licensed military and Fort Huachuca civilian personnel holding a valid Fort Huachuca post hunting permit. Juniors only hunts are only open to properly licensed military and Fort Huachuca civilian dependents holding a valid Fort Huachuca post hunting permit. Hunt numbers, season dates and/or special regulations must be obtained from Fort Huachuca. Increases in Force Protection may result in hunt cancellations at any time with little or no prior notification. In the event a hunt is cancelled due to an increase in security, hunters drawn for these permits will not be reimbursed or otherwise compensated by the Arizona Game and Fish Department. Applications for these hunts must be submitted to the Arizona Game and Fish Department by the published deadline.
- Hunter access in Units 29, 30A, 30B, and 32 is extremely restricted. Applicants should not apply for these units unless they have secured access.
- An "antlerless deer" is a deer, any age, without antlers.
- Winter Range Hunt Area in Unit 12A West - That portion of Unit 12A West located west of the following line: beginning at the junction of FR 22 (West Side road) and the Kaibab National Forest boundary; south on FR 22 to FR 462; southeasterly on FR 462 to the intersection of FR 462, FR 22, and FR 270; south on FR 270 to the Grand Canyon National Park boundary.
- The U.S. Forest Service has expressed concern regarding road damage during wet weather. The Department is working with the U.S. Forest Service to provide limited access via designated core roads in units 5A, 5B, 6A, 6B, 7, 8, and 9 that will remain open during periods when other roads may be closed. When weather is deemed severe, the core roads may also be closed to prevent excessive road damage, provide for public safety, and protect natural resources. Roads that have been closed are closed to all users. Hunters should respect and obey road closures and drive responsibly during wet periods. It is recommended that hunters contact the appropriate Forest Service office to determine current road status for their hunt area (see the Index: Hunting on Public Lands).
- Unit 31 and 32 hunts -- Access to Aravaipa Canyon Wildlife Area (as prescribed in R12-4-802) is allowed by permit only, available through the Safford Field Office of the Bureau of Land Management. For more information, contact the Safford Field Office at (928) 348-4400 or www.blm.gov/az/sfo/aravaipa/aravaipa.htm.
- The area within the fenced enclosure inside the loop formed by Tonto National Forest Road 647, also known as the Walnut Canyon Enclosure, is open to public entry and the taking of deer during open season.
- Unit 3C Hunts -- For all hunts that include that portion of Unit 3C south of State Route 260. Due to the Rodeo-Chediski Fire there are Special Restrictions (per Forest Order) in place: 1) Vehicle access is allowed only on open roads that are marked with white arrows; 2) Cross-country travel with any type of motorized vehicles is not allowed; 3) Use of motor vehicles to retrieve big game (elk, deer) is only permitted within 300 feet of open roads (those marked with white arrows).

Who is a Junior?

There are several different categories of “Junior” in Arizona. All of the definitions are listed here:

- A person under 14 may hunt wildlife other than big game without a license when accompanied by a properly licensed person 18 years or older. No more than two unlicensed children may accompany any license holder.
- No one under the age of 14 may take big game without having completed a hunter education course. No one under age 10 may hunt big game in Arizona. To hunt big game, anyone 10-13 years of age must have in their possession a valid hunting license, a valid Hunter Education Course completion card, plus any required permit tags or stamps.

- Trapping: A trapper under the age of 14 is not required to purchase a trapping license, but shall obtain a registration number from any Department office before taking wildlife with a trap. A trapper’s registration number is not transferable.
- Anyone up to and throughout the calendar year of their 20th birthday may purchase a youth combination hunting and fishing license.

JUNIORS-ONLY HUNTS: Eligible hunters: Persons are eligible to participate up to and throughout the calendar year of their 17th birthday, provided that persons between the ages of 10-13 have satisfactorily completed a hunter education course that is approved by the Director as per A.R.S. 17-335 (C).

Transfer Tags

Under Arizona Revised Statutes and Arizona Game and Fish Commission Rules there are ways people can transfer big game tags to children.

A parent, guardian or grandparent to whom a big game permit or tag is issued may transfer the unused permit or tag to the parent’s, guardian’s or grandparent’s minor child if:

- The minor child is between 10 to 17 years old on the date of transfer;
- The minor child has a valid hunting or combination license on the date of the transfer; and
- A minor child less than 14 years old has satisfactorily completed a Department-approved hunter education course by date of transfer.

See R12-4-121 on page 109 for more information.

A person may transfer his or her big game tag for use by a child with a life threatening medical condition. Consult A.R.S. 17-332 on page 99.

Should you be unable to use your big game permit, the Department is unable to reimburse you for your fees or reinstate your bonus points. However, you may donate your tag to a nonprofit organization that provides hunting opportunities to children with life-threatening medical conditions. You may contact the following organizations to arrange for a donation.

- Hunt of a Lifetime at www.hoalarizona.org.
- Catch-A-Dream at <http://catchadream.org>.

Regular Hunts: Junior Eligibility

The Arizona Game and Fish Department is providing this section on juniors-only hunting to highlight the hunts for which hunters have exclusive application opportunity. Some of these hunts have reduced fees. But juniors are not only limited to these hunts. **Juniors may apply for other season hunts (beginning on page 36), but must include the higher fees when applying.** If a junior chooses to apply with an adult, they are not eligible to apply for hunts of the same species listed in the juniors-only seasons.

Hunter Education

Hunter Education programs across the country are designed to continue the hunting heritage by developing safe, responsible, ethical and knowledgeable hunters. Hunting is a hallowed family tradition that teaches respect for life, each other and nature. It teaches accountability and responsibility. If you are a new hunter, or want to learn about wildlife conservation, the environment, firearms and gun safety, our hunter education courses can help. The program will also benefit experienced people who want to become more proficient hunters and conservationists. While hunter safety is the program focus, hunter ethics, wildlife management, survival, and other important topics are also covered. Hunting is safe, and community and family sustaining. Enroll your family in our hunter education program today. For more information, visit www.azgfd.gov or call (623) 236-7235 or (623) 236-7219.

Course information

Everyone that is at least 10 years old is encouraged to participate in a Department hunter education course. Taught by volunteer instructors, a modest fee to offset student expenses for ammunition and other materials is usually assessed at the first class. The Department offers an introductory beginners course requiring approximately 9 hours in the class room with a field day consisting of another 4 to 6 hours. The Department also offers an independent study online hunter education course. Just like the classroom courses however, a final (proctored)

exam will be required prior to course graduation. More detailed classes are also available requiring approximately 20 hours, along with a combination course for bow hunters that is approximately 28 hours. These classroom courses are generally offered during weekends and week nights across the state with the field day conducted at a local shooting range.

At a minimum, subjects covered include an introduction to hunter education and conservation as well as topics such as:

- Safety, responsibility, hunter education funding sources.
- Behaviors of a responsible hunter, preventing accidents, planning and preparation, clothing, topographic maps and compasses, survival skills, coping with weather related conditions and basic first aid.
- Wildlife conservation, the hunter's role in wildlife conservation, habitat management, wildlife identification.
- Basic hunting and shooting skills, good marksmanship and accuracy, dominant eye, sight alignment, sighting-in a rifle, rifle firing techniques, shooting positions, shotgun shooting, hunting strategies, vital shots and approaching downed game, field care of game, hunter responsibility and ethics, the five stages of hunter development, North American Model of Wildlife Conservation and market hunting.
- Arizona's Hunting Regulations — Develop an understanding of the most often violated Arizona game laws, rules and regulations.

While there is no requirement for hunters to wear orange in Arizona; the department STRONGLY suggests that all hunters adopt this valuable safety precaution to help others see and identify them in the field.

10 Commandments of Hunting Safety and TAB +1

1. **T**reat every firearm as if it were loaded! It might be, even if you think it isn't!
2. **A**lways keep the muzzle in a safe direction. Keep control of the direction of the muzzle at all times.
3. **B**e sure of the target and beyond. Be aware of what is in front of the target. Know the identifying features of the game you hunt. Make sure you have an adequate backstop – don't shoot at a flat, hard surface or water.
4. **+1** Keep your finger outside the trigger guard until ready to shoot. This is the best way to prevent an accidental discharge.
5. Check your barrel and ammunition. Make sure the barrel and action are clear of obstructions, and carry only the proper ammunition for your firearm.
6. Unload firearm when not in use. Leave action open; carry firearm in a case and unloaded to and from the shooting area.
7. Point a firearm only at something you intend to shoot. Avoid all horseplay with a gun.
8. Don't run, jump, or climb with a loaded firearm. Unload a firearm before you climb a fence or tree, or jump a ditch. Pull a firearm toward you by the butt, not the muzzle.
9. Store firearms and ammunition separately and safely. Store each in secured locations beyond the reach of children and careless adults.
10. Avoid alcoholic beverages before and during shooting. Also avoid mind- or behavior-altering medicines or drugs.

Arizona's top hunter education graduates are randomly drawn each year for the AZGFD Youth Pheasant Hunt. While taking a hunter education class, instructors identify their top students and submit them for this random drawing conducted in December. Upcoming classroom hunter education course information can be found at www.azgfd.gov. All classroom hunter safety education courses are taught by Arizona Game and Fish Department certified volunteer instructors.

Hunters Need To Be Prepared

Failing to prepare can lead to injury and death. The cost of the average search and rescue mission can range from \$1,500 to \$4,000 and some searches that are extended operations or require a lot of air support may reach into the tens of thousands of dollars. Hunters should be prepared for any conditions they may face during their hunt. Below are some tips and a list of equipment that should help hunters have a more enjoyable trip.

Essentials

Water
Extra Food
Clothing for both night and day
Fire source
Pocket knife
Space blanket
Flashlight/ headlamp
First aid kit
Cell phone
Maps and navigational device
Signal device
Radio (FRS type radios)
Rope / shoe lace
Water purification tablets or device

Tips

- Planning ahead; inform family/friends of trip location & return time, be familiar with geographical area, environmental conditions (weather)
- Be prepared to spend the night out in the wild
- Have a plan to pack game out
- Do not depend on cell phones
- Be familiar with how to use maps and navigation device

Motorized Game Retrieval

Motorized game retrieval is prohibited on many areas around Arizona. Hunters should be aware of rules and regulations for the area they plan to hunt. Hunters should be prepared for retrieving their downed game without the use of motorized vehicles. Alternative options include horseback, backpack, and game carriers with or without wheels depending on land status.

Welcome to Big Game Hunting in Arizona

Arizona has 10 species of wildlife designated as big game by state statute: mule deer, white-tailed deer, pronghorn, elk, turkey, javelina, bighorn sheep, buffalo, bear, and mountain lion. If you also consider that Arizona is occupied by two recognized subspecies of bighorn sheep (Rocky Mountain and desert) and three subspecies of turkeys (Gould's, Merriam's and Rio Grande), there is ample evidence of the diversity of Arizona's big game, and the opportunities a hunter has to pursue. While the diverse habitats in Arizona are home to a lot of different species, no individual species is particularly numerous. Consequently, most big game hunts have a limited number of permits for which you must be drawn to participate.

Elk and pronghorn application information was provided earlier this year. In fact, the draw for elk and pronghorn is complete and you should know if you received one of these tags. This knowledge should help you determine if you wish to participate in another hunt, and if so, for which deer, turkey, javelina, bighorn sheep, and buffalo hunts to apply.

The Arizona Game and Fish Commission authorized fall javelina permits to be offered to junior hunters this year. If a junior hunter didn't

take a javelina in the spring, that hunter is eligible to apply for these hunts. Junior hunters may wish to apply for a javelina hunt that will complement another deer hunt in which they may participate in this fall. These hunts are excellent ways to introduce a junior hunter to big game hunting.

Compared with last year, deer hunting opportunity has increased somewhat throughout the state, although fewer bighorn sheep tags are available. Turkey permits are relatively unchanged from last year. Junior turkey hunters may now purchase a turkey tag over the counter and hunt in any unit listed in the Juniors-Only section.

The Commission authorized the continuation of the population management seasons for buffalo in Unit 12A. If you are fortunate enough to be drawn for deer in Unit 12A, you will have the opportunity to purchase a buffalo permit to harvest one of these animals. Keep in mind, these restricted nonpermit tags are offered in areas where the named wildlife are not abundant, so your chances of success are small.

So peruse these pages, and select the seasons that meet your desires. Good luck in the draw. Should you need any assistance, feel free to contact any Department office (see contact information on page 3).

Archery deer hunters, except those issued a hunt permit-tag through the draw process, must contact the Arizona Game and Fish Department office in person, or by telephone (1-866-903-DEER [3337]) within 10 days of taking a deer (pursuant to R12-4-308). Those issued hunt permit-tags through the draw process will receive, in the mail, a hunter questionnaire to complete and return.

The U.S. Forest Service is concerned about road damage occurring during periods of very wet weather. To prevent road damage, provide for public safety, and protect natural resources, the Forest Service may temporarily close some of its roads to motor vehicle use when soils are saturated and damage is occurring. Hunters should call the appropriate Forest Service office in which their hunt occurs or visit the Forest Service Web site at www.fs.fed.us/r3 and choose the forest they will be visiting. Once there, go to the current conditions page for the latest road information.

Hunters drawn for units 41W, 43A, or 43B who plan to hunt on YPG must check in with the YPG Hunting Program by calling the toll-free number prior to conducting any hunting activities on the range. Occasionally, due to military activities, some affected hunting areas may be temporarily closed. For information write: U.S. Army Yuma Proving Ground - Bldg. 105, Attn: Hunting Program, 301 C. Street, Yuma, AZ 85365-9498 or call toll-free 1-877-788-HUNT (4868) or (928) 328-2148, or www.yuma.army.mil/hunting_program.htm.
9. The Fort Huachuca Army Garrison in Unit 35A is open to deer hunting only to properly licensed military and Fort Huachuca civilian personnel holding a valid Fort Huachuca post hunting permit. Juniors only hunts are only open to properly licensed military and Fort Huachuca civilian dependents holding a valid Fort Huachuca post hunting permit. Hunt numbers, season dates and/or special regulations must be obtained from Fort Huachuca. Increases in Force Protection may result in hunt cancellations at any time with little or no prior notification. In the event a hunt is cancelled due to an increase in security, hunters drawn for these permits will not be reimbursed or otherwise compensated by the Arizona Game and Fish Department. Applications for these hunts must be submitted to the Arizona Game and Fish Department by the published deadline.

Deer Notes continued:

10. The Santa Rita Wildlife Area in Unit 34A is actively used for studies in wildlife management. Researchers are present all months and study sites are not always recognizable; hunters are urged to use caution while hunting and take care not to disturb study sites.
11. Hunter access in Units 29, 30A, 30B, and 32 is extremely restricted. Applicants should not apply for these units unless they have secured access.
12. An "antlerless deer" is a deer, any age, without antlers.
13. The Grand Canyon-Parashant, Vermilion Cliffs, Sonoran Desert, Ironwood Forest, and Agua Fria National Monuments are open to hunting.
14. Archery deer hunters who received a hunt permit-tag through the draw process are not required to call the toll free Archery Deer Harvest Reporting telephone number to report their deer kill. We encourage hunters to return the Hunter Survey they will receive in the mail. Unit 12A archery deer hunters are not required to check their deer for inspection at the Jacob Lake Checking Station.
15. Hunting is not permitted in Unit 26M in the following described area: Those private lands lying just north of the Town of Cave Creek in Sections 10, 11, 12, 14 and 15 of Township 6 North, Range 4 East.
16. Hunting is not permitted in Unit 47M in the following described area: an unincorporated portion of land within the City of Mesa known as the Elliott and Hawes County Island in Section 16, Township 1 South, Range 7 East.
17. Individuals with permits for these hunts are eligible to purchase Restricted Non-permit tags for the corresponding buffalo population management seasons listed in Commission Order 26.
18. Winter Range Hunt Area in Unit 12A West - That portion of Unit 12A West located west of the following line: beginning at the junction of FR 22 (West Side road) and the Kaibab National Forest boundary; south on FR 22 to FR 462; southeasterly on FR 462 to the intersection of FR 462, FR 22, and FR 270; south on FR 270 to the Grand Canyon National Park boundary.
19. The U.S. Forest Service has expressed concern regarding road damage during wet weather. The Department is working with the U.S. Forest Service to provide limited access via designated core roads in units 5A, 5B, 6A, 6B, 7, 8, and 9 that will remain open during periods when other roads may be closed. When weather is deemed severe, the core roads may also be closed to prevent excessive road damage, provide for public safety, and protect natural resources. Roads that have been closed are closed to all users. Hunters should respect and obey road closures and drive responsibly during wet periods. It is recommended that hunters contact the appropriate Forest Service office to determine current road status for their hunt area (see the Index: Hunting on Public Lands).
20. The Florence Military Reservation (training areas B and D: the areas north and south of Cottonwood Canyon Road) in Unit 37B is subject to short term closures due to military operations, including live fire operations, and requires coordination with the Florence Military Reservation for hunting access. For specific closure dates or any other access concerns, contact the Florence Military Reservation at 602-267-2062. A map of the Florence Military Reservation is located on the Arizona Game and Fish Department's website, azgfd.gov (type Florence Military Reservation in the search box).
21. In the northern portion of Unit 5A, access is permitted on the Clear Creek Ranch by written permission only. Written permission may be obtained at the Ranch headquarters located west of AZ Highway 87 at mile post 333.
22. Unit 31 and 32 hunts -- Access to Aravaipa Canyon Wildlife Area (as prescribed in R12-4-802) is allowed by permit only, available through the Safford Field Office of the Bureau of Land Management. For more information, contact the Safford Field Office at (928) 348-4450 or www.blm.gov/az/sfo/aravaipa/aravaipa.htm.
23. The area within the fenced enclosure inside the loop formed by Tonto National Forest Road 647, also known as the Walnut Canyon Enclosure, is open to public entry and the taking of deer during open season.
24. Hunting is not permitted in Unit 25M in the following described area: an unincorporated portion of land within the Town of Queen Creek in Pinal County in Sections 5, 7, 8, and 18 of Township 3 South, Range 8 East.
25. Archery deer hunters planning to hunt in the Tucson Mountain Wildlife Area in Unit 38M must check in with the Arizona Game and Fish Department Tucson Regional Office prior to going afield.
26. Unit 3C Hunts -- For all hunts that include that portion of Unit 3C south of State Route 260. Due to the Rodeo-Chediski Fire there are Special Restrictions (per Forest Order) in place: 1) Vehicle access is allowed only on open roads that are marked with white arrows; 2) Cross-country travel with any type of motorized vehicles is not allowed; 3) Use of motor vehicles to retrieve big game (elk, deer) is only permitted within 300 feet of open roads (those marked with white arrows).

In the event a hunt is cancelled due to an increase in security, hunters drawn for these permits will not be reimbursed or otherwise compensated by the Arizona Game and Fish Department. Applications for these hunts must be submitted to the Arizona Game and Fish Department by the published deadline. Mountain Lion Hunts

■ Distribution

For further information on mountain lions, their habitat, range, natural history, or where you can hunt them in Arizona, please visit www.azgfd.gov.

LEGAL REQUIREMENTS

License Required	Any valid hunting or combination license except a Three-Day Hunting (Class H) (See tables on pages 14–15 for Resident and Non-resident license fees).
Tag Required	A hunt nonpermit-tag must be obtained from a license dealer as prescribed in R12-4-114.
Legal Methods of Take	General Hunt: Any firearm or bow and arrow as prescribed in R12-4-304. Archery-Only Hunt: Bow and arrow as prescribed in R12-4-304 and R12-4-318 and/or crossbow as allowed under R12-4-216.
Bag Limit	One (1) mountain lion per calendar year statewide. In units with a multiple bag limit, hunters may take one (1) mountain lion per day until the multiple bag limit is reached. Once the multiple bag limit has been reached, the season will remain open and revert to calendar year bag limit of one (1) mountain lion. Mountain lions taken under the one (1) per day multiple bag limit do not apply towards the calendar year bag limit until the multiple bag limit is reached.
<i>To hunt mountain lion in Arizona, you need a valid hunting or combination license and a mountain lion tag. To hunt mountain lion in any season, you must obtain a hunt nonpermit-tag from a license dealer as prescribed in R12-4-114.</i>	
<i>As prescribed in R12-4-308, all hunters must contact an Arizona Game and Fish Department office in person or by telephone at 1-877-438-0447 within 48 hours of taking a lion. The report shall include the hunter's name, hunting license number, tag number, sex of the lion taken, management unit where the lion was taken, and telephone number at which the hunter can be reached to obtain additional information. Within 10 days of taking a lion, the hunter shall present the lions skull, hide, and attached proof of sex for inspection. If a hunter freezes the skull or hide before presenting it for inspection, the hunter shall prop the jaw open to allow access to the teeth and ensure that the attached proof of sex is identifiable and accessible (pursuant to R12-4-308). A premolar tooth and a DNA sample will be taken from the lion during the inspection. Successful hunters are encouraged to contact the nearest Department office by telephone to coordinate inspections.</i>	
<i>Hunters may encounter mountain lions wearing radio collars around Flagstaff, Prescott, Payson, Tucson, and western Maricopa County. The lions instrumented with these collars are part of several ongoing research projects. The collars are used to track lion movements as researchers try to learn how the lions use various habitat types and urban interface areas. The longevity of these lions is important to the ongoing research, and data collected will help to improve Arizona's management of lions in the future. If you would like more information about any of these research efforts please contact the Arizona Game and Fish Department Research Branch at (623) 236-7247. Also, if one of these animals is harvested, the hunter is asked to return the collar, as well as any other marking device, such as an ear tag, to a Department office or officer when doing the required physical check-in of the carcass parts</i>	
MOUNTAIN LION SPECIAL NOTE: In accordance with R12-4-305(H), an individual may retain the carcass of a lion taken under A.R.S. 17-302 when the season is closed.

Illegal Marijuana Gardens

Illegal marijuana gardens have become a concern in the backcountries of Arizona. Multi-agency law enforcement task forces have been developed to help address this problem. These task forces are asking for help from hunters and other outdoor recreationalists in locating new or established growing locations. Things to look for are black irrigation pipe, stockpiles of fertilizer and insecticides, solar panels, dammed creeks or springs, and food trash piles in remote canyons. The gardens are always found in the vicinity of a water source and are usually well off the beaten path. If you encounter a suspected marijuana garden, it's advisable to leave the area immediately and contact local law enforcement authorities.

Population Management Hunts

Beginning in 2003-2004, the Arizona Game and Fish Department established Population Management Hunts and the Hunter Pool. AZGFD Wildlife Managers have found that previous hunt strategies designed to manage some wildlife populations are not meeting objectives. When regular hunt seasons don't meet management objectives, conflicts between wildlife and other uses of the land can occur. Population management hunts are designed to allow the Department to achieve supplemental harvests of wildlife when traditional harvest strategies have not met their objectives. Population management hunts will enhance the Department's ability to meet population and habitat management objectives.

The following information is important to know if you are planning on applying for a population management hunt.

- Population management hunts may occur as necessary, under the provisions of R12-4-115 (page 108).
- The Population Management Seasons Commission Order 26 approved by the Commission designates the range of species, season dates, open areas, legal wildlife, lawful taking methods, and maximum tag numbers for population management hunts to be prescribed by the Director and implemented under R12-4-115.
- When a population management hunt is found to be necessary, as prescribed in R12-4-115, hunters will be selected from the hunter pool made up of hunter pool applicants (see application below).
- The hunter pool list will be purged by the Department

Dec. 31, 2009. You may apply at any time during the year (note: do not include the hunter pool hunt application form with a hunt permit-tag application—you must apply separately. See application below for instructions).

- To complete your application, you must designate the species of animal(s) you desire to hunt and the weapon type(s). You must also submit a \$7.50 application fee (note: one \$7.50 application fee per application—not per species). Please do not send cash.
- You may designate more than one species and weapon type on the application form. If you choose to designate more than one species and weapon type on your hunter pool application, your name will be included in the hunter pool for each species and weapon type you designate. This means that you may be eligible to participate in a population management hunt for more than one species or method of take each year (note: annual bag limits apply to all population management hunts and may limit your ability to participate in a population management hunt or regular season hunt).
- If you participate in a population management hunt and fill your annual bag limit for that species, you may not participate in a regular hunting season for that species even if you are drawn through the normal draw process (note: A.R.S. 17-332.E. prohibits the issuing of a refund for the purchase of a license or a permit).
- If your application is selected during a random drawing for a population management hunt, the Department

will attempt to contact you three times by telephone within a 24-hour period. If you cannot be contacted within 24 hours, your application will be returned to the hunter pool for inclusion in future population management hunts during that year.

- If you are offered a restricted non-permit tag for a population management hunt, pursuant to R12-4-115, you may decline to participate. If you decline to participate, your application will be returned to the hunter pool for inclusion in future population management hunts during that year (note: if you agree to participate in a population management hunt but fail to purchase your tag within the timeframe designated when you are contacted, you will not be eligible for further population management hunts that year).
- If you elect to participate in a population management hunt, it is probable that you will be asked to arrive in the field to hunt within a few days of being contacted (note: purchase of restricted nonpermit-tag and applicable hunting license prior to hunting is required).
- Restricted non-permit tags issued through the hunter pool may be purchased through the Department's Phoenix office. See the front of the hunting regulations booklet for the address and phone number.
- You will not gain or lose bonus points when you apply for, or participate in, a population management hunt.

Form may be photocopied.

Condor Country: Why Non-lead Ammunition?

Hunters are helping

Approximately 90 percent of Kaibab hunters took voluntary lead reduction actions during their fall 2008 big game hunt. Thanks to their efforts, no condors died of lead poisoning for the second year in a row.

The hunting community should be proud of this accomplishment, but we still need more hunters to help. Please help us prove to our critics that we can solve this problem on our own and that mandatory measures are not needed.

Hunters who use non-lead ammunition in condor range carry on sportsmen's proud tradition of wildlife conservation. If you choose to use lead ammunition, you can still help by removing your entire game carcass (including small game and varmints) and gut pile from the field. Local landfills accept and bury animal remains.

Hunters praise non-lead bullets

Copper bullets have superior penetration, are less toxic, and do not fragment like lead. 93 percent of hunters say that non-lead bullets perform as well as or better than lead bullets on game.

The Arizona Game and Fish Department and our partners ask you to be part of the solution by using non-lead ammunition when hunting in condor country (Game Management Units 9, 10, 12A, 12B, 13A, and 13B).

These sportsmen's groups ask you to use non-lead ammunition in condor range:

- Arizona Deer Association
- Arizona Elk Society
- Arizona Antelope Foundation
- Arizona Desert Bighorn Sheep Society
- Arizona Chapter of the National Wild Turkey Federation

Hunters drawn for hunts in condor range will be mailed more information before their hunt.

CHRIS PARISH/PEREGRINE FUND

Lead poisoning is the leading cause of death in condors and the main obstacle to a self-sustaining condor population in Arizona. At least 12 condors have died from lead poisoning and almost 400 cases of lead exposure have been documented since 1999.

Lead bullet fragments remain in game carcasses and gut piles left in the field by hunters. These X-rays show hundreds of lead fragments (fragments appear bright white in X-ray) in a deer carcass and gut pile. Condors are group feeders, so several birds can ingest fragments from one carcass or gut pile containing lead.

Studies have concluded that lead shot and bullet fragments found in game carcasses and gut piles are the main source of lead in condors. To read these studies and for more info on non-lead ammunition and the condor program, visit: www.azgfd.gov/condor.

X-ray of a lead and non-lead bullet shot into ballistics gel. Even with no hide or bone, the lead bullet fragmented significantly (fragments are black in X-ray). All visible fragments are from the lead bullet. The copper bullet left no fragments in the gel.

Mexican Wolf Blue Range Reintroduction Project

Hunters have played a significant role over the past 100 years in recovering and reestablishing wildlife populations across our country, ranging from white-tailed deer to wild turkey to Canada geese. The Arizona Game and Fish Department is asking hunters to step up once again to assist in recovering a wildlife species to its historic range in east-central Arizona.

If you are hunting this year in Unit 1 or 27 or surrounding areas, please be aware that Mexican wolves may be present. Over the past several years numerous wolves have been illegally shot, causing significant setbacks to the reintroduction project. It's possible that many of these shootings were cases of mistaken identity—that the shooter believed the target was a coyote. It can be

difficult to distinguish wolves from coyotes, especially if the light is bad, the sighting is brief, the animal is far away, if it's a juvenile wolf or a wolf in its summer coat.

Please read the following identification material and become familiar with the regulations regarding interactions with Mexican wolves.

Arizona Game and Fish Department

Know the Difference

Coyote (*Canis latrans*)

Ears are prominent, pointed, relatively long.

Muzzle is slender and pointed.

1-2 feet tall; 4 feet long with tail;
Front paw, 2.5 inches long x 2 inches wide

- Nose is more pointed
- Usually displays skittish behavior, tends to flee immediately
- Legs and feet are smaller, more delicate
- Weighs 20 - 35 pounds
- Fur color is very similar to wolves:
 - Grizzled gray, rust or buff
 - Rarely white or black

Mexican Wolf (*Canis lupus baileyi*)

Ears are more rounded, relatively short.

Muzzle is large and blocky.

2-3 feet tall; 5 feet long with tail;
Front paw, 4.5 inches long x 3.5 inches wide

- Nose is broad
- Sometimes displays curious behavior and may not flee as quickly
- Legs are longer, more lanky; feet are larger
- Weighs 50 - 80 pounds
- Fur color is very similar to coyotes:
 - Grizzled gray, black, rust or buff
 - Not all white or all black
- Not all wolves have radio collars

Helping wolves, humans coexist

Mexican wolves are protected under the Endangered Species Act. However, you may legally harass a wolf without injuring it, but you must report the incident within seven days. You may also legally harass, injure or kill a wolf in defense of human life but you must report it within 24 hours. Keep in mind that few people have had to frighten Mexican wolves away, and no one has been injured by one. Most report that hearing or seeing wolves has not affected the success of their hunt and say a sighting has actually added to the quality of their outdoor experience.

You may not legally kill or injure a wolf just because it is near you; kill or injure a wolf that attacks your hunting dog or pet; kill or injure a wolf that is in the act of killing, wounding or biting your horses, mules or any pack animals on public land; enter official closures around occupied release pens, active dens and rendezvous sites; shoot a wolf because

you thought it was a coyote or something else. Coyote hunters should exercise extra caution July to November because wolf pups are active, and their appearance and behavior make them appear like coyotes. You are responsible for identifying your target before shooting. Violations of these rules may subject you to prosecution. Criminal penalties may be imprisonment of not more than one year and a fine of up to \$50,000 and/or a civil penalty of up to \$25,000.

If you have any questions regarding wolves, visit www.azgfd.gov/wolf.

Ways to avoid wolf conflicts

Wolves normally avoid human contact. Like all wildlife, they can be curious and could become habituated to humans. This is especially true if people at campgrounds feed wolves.

If a wolf should approach you, raise your arms and look as big as possible. Yell or

throw rocks to scare it away. Back away slowly — never run.

Some other tips

- Keep a clean camp.
- Prepare and store food and wash dishes away from sleeping areas.
- Properly store garbage in camp and dispose of trash in predator-proof receptacle.
- Keep pets close to you. Do not leave them unattended or allow to run free.
- Never feed wildlife — including wolves.

Welcome to Small Game Hunting in Arizona

SMALL GAME HUNTERS IN ARIZONA are very fortunate. Few other places in North America offer such a wide variety of hunting opportunities over such long periods of time. Within this section are the season dates, bag limits, and other pertinent information necessary to hunt small game and other wildlife. The 2009–10 hunting season promises to be a good one for the small game hunter. For the second year in a row most of Arizona, with the exception of the southeast portion of the state, received average or above average winter precipitation. This bodes well for Gambel's quail, scaled quail and cottontail rabbit hunters. This summer's monsoon rainfall will

determine Mearns' quail production. With the right amount of precipitation there are plenty of adult Mearns' in the field following last years' season to ensure another good year.

Winter precipitation does not always benefit all small game. This is true with tree squirrels such as the Abert's squirrel. For the second year in a row a prolonged snow pack has covered most of central and northern Arizona's ponderosa pine forest. Though good for the habitat, when the forest floor is covered with snow for an extended period of time the overall survival rate of Abert's squirrel decreases as they are forced to feed on less nutritious pine stems. The

overall number of tree squirrels will most likely decline from last year and the hunting forecast for tree squirrels will be average.

How about spending time pursuing Arizona's "bigger three" upland game birds? Chukars, blue grouse, and pheasants each offer their own unique challenges for the small game hunter.

As with any season or upcoming hunt make sure to do your homework. Good luck and enjoy your hunting experience. For more information on these species, seasons, and hunting regulations, please visit www.azgfd.gov.

Where, When and How Can You Hunt?

Where Can You Hunt?

GENERAL – Areas open for hunting are shown in the Commission Orders for each big and small game species (pages 36-75). Generally, U.S. Forest Service, Bureau of Land Management and State of Arizona lands are open for hunting. National Parks, and some National Monuments and State Parks are not.

MAPS – The Arizona Game and Fish Department does not publish maps. There are, however, maps available from the U.S. Forest Service, the Bureau of Land Management, and the State Land Department.

ACCESS – Land in Arizona is owned or managed by six different governments or agencies, each with its own set of access rules. (There are 13.1 million acres of private land in Arizona.)

- **THE U.S. FOREST SERVICE** manages 15 percent of the state. Access is open to hunting and fishing in season, though some areas are subject to special closures.
- **THE BUREAU OF LAND MANAGEMENT** manages 16 percent of the state. Call (602) 417-9200 for additional information on BLM and other public lands.
- **THE STATE OF ARIZONA** manages 13 percent of the state, and the State Land Access Rule (R12-4-110, page 107) delineates the rights and privileges of sportsmen and landowners or operators as regards state lands. Note that “State Land - No Trespassing” signs prohibit access to non-permittees. Properly licensed hunters lawfully taking wildlife are considered permittees for the purpose of trespassing on state land, and are therefore allowed access - see

R12-4-110, paragraph I, page 107. The State Land Department is at (602) 542-4621.

- **INDIAN RESERVATIONS** comprise 28 percent of Arizona. Individual tribal governments establish hunting and fishing regulations for their reservations. See R12-4-117, page 109.
- **NATIONAL WILDLIFE REFUGES** have separate regulations. See below for telephone numbers for refuges in Arizona.
- **MILITARY INSTALLATIONS** have separate regulations. Consult individual Commission Orders for specific information.

HUNT UNITS – The maps on pages 77-83 show hunt unit boundaries, which are described in detail in R12-4-108 on page 103. Portions of any unit may be closed during certain hunts. These closures are listed in the footnotes following the Commission Order for the hunt in question (pages 36-75).

SPECIAL RESTRICTIONS – Some parks, refuges and similar areas have special regulations governing certain kinds of hunting - see R12-4-301 (page 111). For special requirements in state wildlife areas, see R12-4-802 (page 116).

ROADS AND VEHICLES - It is illegal to take wildlife or to discharge a firearm or shoot any other device from a vehicle. A vehicle is any device designed to carry a person - all terrain vehicles, utility terrain vehicles, all terrain cycle, pickup, automobile, motorcycle, aircraft, train, powerboat, sailboat, a boat under sail, or a floating object towed by a powerboat or sailboat. (Requirements for waterfowl are different - see Migratory Bird Regulations.)

National Wildlife Refuges

National Wildlife Refuges in Arizona provide hunting opportunities in designated areas. The following rules apply to all National Wildlife Refuges and are listed to help guide you when visiting:

1. Loaded weapons may be carried only in hunting zones when actually hunting. A loaded weapon is defined as ANY round in the weapon, including the magazine.
2. Weapons in the vehicle must be unloaded and cased.
3. Target shooting or the discharge of a weapon except to hunt is not permitted.
4. Motorized vehicles may operate on designated public roadways **only** and must be “street legal” ie. licensed, insured and equipped to operate on state highways.
5. Pits, permanent blinds and stands; trail or scouting cameras; and baiting are prohibited.
6. The use or possession of alcoholic beverages while hunting is prohibited.

7. Temporary blinds, boats, hunting equipment, and decoys must be removed following each day's hunt.
8. Guide service providers must obtain a Special Use Permit from the refuge on which they provide their services.

More information, including refuge-specific regulations and maps, should be obtained by writing or phoning the refuge at:

vation hunt permit-tags will not be reimbursed or otherwise compensated by the Arizona Game and Fish Department.

A map of the Florence Military Reservation is located on the Arizona Game and Fish Department's Web site, www.wzgf.gov (type Florence Military Reservation in the search box).

Wilderness Areas

The Wilderness Act of 1984 and the Desert Wilderness Act of 1990 designated large portions of Arizona as wilderness. Hunters should be aware that this may influence their hunt. Except where specifically permitted, all forms of motorized travel are prohibited. Hunters should be prepared for remote and primitive conditions. For additional information regarding wilderness restrictions, hunters should contact the Bureau of Land Management, the U.S. Fish and Wildlife Service, or the U.S. Forest Service, as appropriate for the area of interest.

Shooting Within City Limits

Arizona State Law (A.R.S. § 13-1307) prohibits discharge of firearms in the incorporated limits of any municipality unless excepted by local ordinance. In addition, some city or town ordinances also prohibit discharge of other implements. Check with your local police Department for information before shooting inside incorporated limits.

State Trust Land

This is the sign used to delineate the boundaries of the state trust lands for hunters, anglers, and trappers. Some of the older signs may still be posted. However, the new sign as shown below, should be followed by sportsmen as it effectively replaces the older state trust land sign.

Tree Stands and Blinds

Tree stands and blinds can be effective and legal tools to aid in the taking of wildlife. However, please take into consideration the following before hanging a tree stand or setting a blind:

- It may be unlawful to cut any trees or branches while hanging tree stands or setting blinds.
- It may be unlawful to leave tree stands hanging or blinds set for extended periods of time. They may be considered abandoned property and subject to seizure.
- Construction of permanent tree stands or blinds on public lands is unlawful without appropriate authorization.
- It may be unlawful to pound climbing spikes or attach anything that penetrates the surface of a tree causing permanent injury or scarring.
- Placement of tree stands or blinds on public property does not give a person ownership of that area. First come – first serve is common courtesy that should be used when more than one person wants to hunt the same area (or waterhole).

Sportsmen are advised to be responsible when using tree stands or blinds, and check with the appropriate land management agency regarding use and/or restrictions.

Access to Private Lands

You must have written or verbal permission from private property owners for use of their legally posted private lands for any purpose including crossing these lands by foot or vehicle to get to public and State Trust lands not accessible by public means.

The private landowner who has given you permission to use the property may not mind if you bring a friend or two along. You may destroy your welcome if you arrive with a carload of companions.

Developing person-to-person relationships with private landowners is another key to having more access available for wildlife recreation. Sportsmen who get to know a landowner and who stop in after their stay are almost always welcomed back.

By treating the land as if it were your own, and by showing consideration and courtesy to the landowner and the property, a sportsman will always have a place to enjoy wildlife.

Never forget that you are a guest when using or crossing private lands, and this access is a

Where, When and How Can You Hunt?

privilege, not a right. Your actions may be the determining factor in anyone else accessing these lands.

Be aware that in some areas gaining permission to hunt one particular species may be nearly impossible while gaining permission to hunt another species is often easy. For example, some landowners may not let you hunt big game on their property, but would let you call predators or hunt small game.

Be aware that sometimes the landowner may grant access to those who ask to go by foot or horseback versus vehicular access.

Don't assume, unless told otherwise, that permission granted one season means you automatically have permission the following seasons. Situations and ownership change, and permission should be requested each season.

Guide Service

A guide license issued from the Arizona Game and Fish Department is required for any person who, for pay, aids or assists another in the taking of wildlife in Arizona. This license does not assure consumer satisfaction; potential clients should require references before engaging the services of a guide.

Guiding on USFS, BLM, or USFWS lands requires a special-use permit from the administering agency. It is the responsibility of the client to determine if their guide has the necessary special use permits.

Trapping

Trapping on private land is legal in Arizona, with seasons generally running from November through February. All traps must be inspected daily. It is illegal to disturb traps or trapped animals without permission of the trap owner. If you must disturb a trap, for example to release your own dog, leave the trap where you found it. See Trapping Commission Orders on page 75 and A.R.S. 17-301D.

Hunting Accidents

Any person, who while taking wildlife, is involved in a shooting accident resulting in an injury should render every possible assistance

to the injured person. If the accident results in a fatality, he or she shall immediately report the accident to the nearest available law enforcement officer and render assistance as required. In any hunting accident, a report shall be filed with the Arizona Game and Fish Department within 10 days.

Road Damage by Motorized Vehicles

The U.S. Forest Service has expressed concern over damage to roads during hunting seasons. Since the majority of our big game habitat is found on Forest Service lands, the Department urges hunters to cooperate with the U.S. Forest Service to reduce road damage. The U.S. Forest Service may close roads during wet periods. During such periods, roads are closed to all users. Please cooperate and reduce road damage. Careless hunters can be fined for damages they cause; assessment can be as high as \$5,000 per mile driven.

Taking Wildlife from a Vehicle

Includes: using a vehicle to hunt while traveling on or off road; and/or chasing wildlife with a vehicle, both of which are illegal. It is also illegal under state law to shoot from, across, or onto a roadway or railway. See A.R.S. 17-301.B on page 98.

It is illegal to use an aircraft to pursue, shoot, hunt or otherwise take wildlife. See R12-4-319 on page 115.

Posting Signs

The U.S. Forest Service would like to remind you that posting or erecting any unauthorized paper notice, sign or similar matter on lands administered by the U.S. Forest Service is a violation of the Code of Federal Regulations.

When Is Hunting Legal?

SEASONS

Open hunting season dates are indicated in the Commission Orders governing the taking of each kind of big and small game (pages 24-29 and 36-75). Seasons for all wildlife are closed unless specifically opened by Commission Order.

Special restrictions apply on state wildlife areas (see R12-4-802, pages 116), as well as at certain times on parks, refuges and similar areas (see Hunting on Public Lands in the Index, page 120).

SHOOTING HOURS

Legal shooting time is during daylight hours (see sunrise-sunset chart on page 92) or as prescribed by the Commission (see individual Commission Orders). In general, if you can see well enough to shoot safely, you are legal. Taking wild animals or birds by moonlight or artificial light is illegal, except for raccoons, reptiles and other mammals as prescribed in R12-4-304, page 111. Other time requirements apply for migratory birds (see Migratory Bird Regulations).

Operation Game Thief: Wildlife's Answer to Dialing 911

Poachers are a serious threat to Arizona's wildlife. They contribute nothing, yet every animal they take deprives hunters and non-hunters alike of wildlife recreational opportunities. Please report any poaching or other wildlife related violations to the Operation Game Thief hotline. The hotline operates 7 days a week, 24 hours a day. All calls will remain confidential upon request. Rewards of up to \$1,000 may be offered upon arrest in certain cases. Poachers are a "Mutiny on your Bounty" so please help us put them out of business.

License Revocations and Civil Assessments

The Arizona Game and Fish Commission has the authority to revoke an individual's privilege to take wildlife. It also can bring a civil action against the individual to reimburse the State for the value of any unlawfully taken wildlife. For repeat offenders, the Commission may revoke a person's license to take wildlife for the rest of his or her life. Civil values vary depending on the species of wildlife taken and the size. The current civil assessment for trophy class wildlife starts at \$8,000.

Operation Game Thief Needs Your Help

A majority of cases were initiated by concerned sportsmen, such as you, making a call on the Operation Game Thief hotline. You can and do make a difference! If you witness a violation the following information will assist us during our investigation.

What is the violation?

Where did it occur? Be as specific as possible. It is necessary that our officers return to the site.

When did it occur?

Specific violator/vehicle information. What did the individual look like and what were they wearing? What make, model, and color vehicle were they driving? Record the license plate if possible and, if they left, the direction of travel.

Your name and telephone number. Although this is optional, the number of cases that are actually prosecuted from anonymous tips is very low. This is simply because most people do not know the type of information needed to successfully charge and prosecute a violation. Our officers want to talk with you and will guarantee that no one knows your name. We also want to give you a reward for the information you provided. Each year we pay out thousands of dollars in reward payments to concerned sportsmen.

Poachers are Thieves, Help Stop Poaching

– Minimum Rewards –

- \$350** Elk, bighorn sheep, eagles, buffalo, endangered species
\$250 Deer, antelope, bear, lion, turkey, javelina
Up to \$150 Beaver, geese, raptors, ducks, small game, nongame birds, fish

A maximum of \$1,000 can be paid for information about major violations, repeat offenders and commercial poachers. You need not appear in court or give out your name. Upon the arrest of a violator, a reward may be paid to you in such a manner that you will remain anonymous.

– Other Rewards Of \$50 – \$1,000 –

In addition, several sportsmen's groups provide reward monies which allow payment ranging from \$50 to \$1,000 in cases where under state law Operation Game Thief is not able to pay. Nevertheless, the rewards are for cases where the tip was provided originally through Operation Game Thief. Decisions on these are made in consultation with the boards of these organizations:

Arizona Antelope Foundation, Arizona Bowhunters Association, Arizona Elk Society, Tucson Rod and Gun Club, Arizona Desert Bighorn Sheep Society, Arizona Bowhunters and Field Archers Association, Arizona Muzzleloading Association, Central Arizona Bow-hunters, Western Bowhunters Association, Sportsman's Voice, Phoenix Varmint Callers, Arizona Trapper's Association, North American Bear Society, Sportsman's Gun Club, Tucson Chapter of Safari Club International, Phoenix Chapter of Safari Club International, Arizona Chapter of the National Wild Turkey Federation, and the Arizona Deer Association.

The Arizona Houndsmen have offered a reward up to \$5,000. Please see page 92.

Off-Highway Vehicles

The use of off-highway vehicles (OHVs), specifically all-terrain vehicles (ATVs, UTVs), by hunters is growing. The Arizona Game and Fish Department's Off-Highway Vehicle Program promotes responsible and safe use of off-highway vehicles.

OHV rules and laws:

- No one may use a motor vehicle to assist in the taking of wildlife (except as permitted under the Challenged Hunter Access Mobility Permit, R12-4-217).
- An off-highway vehicle may only be used as a means of travel. It is unlawful to shoot from any OHV, to shoot across, near or from any railroad or roadway.
- It is unlawful to chase or harrass any wildlife with a motorized vehicle.
- Cross-country travel is illegal in most areas, unless you are picking up legally taken big game. (Some areas do not allow even that.) Always check with the land management agency. Stay on roads and trails.
- As of Jan. 1, 2009, you are required to display the OHV Decal on your vehicle if it meets the two following requirements:
 1. It is made by the manufacturer primarily for travel over unimproved terrain **and**
 2. Has an unladen weight of 1,800 pounds or less(If you have a "street legal" vehicle and you meet these requirements you will also need the OHV decal)
- As of July 1, 2009, all OHVs are required to have a certificate of title. You can obtain a title from the Arizona Department of Transportation Motor Vehicle Division (MVD).
- Anyone 18 and under riding **on** an OHV or ATV is required by law to wear a properly fitted and fastened U.S. Department of Transportation approved helmet. For safety reasons, it's recommended that riders 18 and under riding **in** a UTV also wear a helmet.
- All OHVs are required to have a USDA approved spark arrestor device.
- All OHVs are required to have either a muffler or other noise dissipative device that prevents sound above 96 decibels.
- It is unlawful to drive an OHV on roads, trails, routes or areas marked closed by any land management agency or private land owner.
- A person from out-of-state may operate an OHV in Arizona if all of the following apply:
 1. The person is not a resident of this state **and**
 2. The person owns the vehicle **and**
 3. The vehicle displays a current OHV sticker/decal/title/registration from the person's state of residence **and**
 4. the vehicle is not in this state for more than 30 consecutive days
- If you witness habitat damage or vandalism, report it at 1-800-VAN-DALS (826-3257).

- Call Operation Game Thief at 1-800-352-0700 to report wildlife-related violations.

Tips for OHV users:

- Always remember: Nature Rules! Stay on roads and trails.
- OHVs can severely damage wildlife habitat.
- Hunting from any vehicle is illegal and unsafe.
- OHV rules vary depending on which agency manages the land on which you are riding.
- It is your responsibility to know applicable OHV laws.
- If traveling across country to retrieve game, do so with such care so that your use is low impact and will not be viewed as a new road by other users.
- Contact the appropriate land management agency to learn its off-highway vehicle rules and regulations. Phone numbers to federal and state land management agencies are on pages 84-87.

Firearms safety:

- When carrying a rifle or shotgun on an ATV, it should be unloaded and put in a case that is firmly attached to the vehicle.
- It is unsafe to carry a rifle or shotgun mounted on the handlebars of an ATV. The firearm could be wider than the ATV, causing an increase in the chance that the firearm could hit something and lead to loss of control.
- Don't forget T.A.B. +1 – **T**reat every gun as if it were loaded, **A**lways point the muzzle in a safe direction, and **B**e sure of your target and beyond. **+1** Keep your finger outside the trigger guard until ready to shoot.

Jaguars: Attention Mountain Lion Hunters

Jaguars are listed as endangered in the U.S. under the Endangered Species Act. If, when using dogs to tree mountain lions, a jaguar is inadvertently chased and/or treed by dogs, the dogs must be called off the trail upon realization that a jaguar is being chased. Please report any jaguar sighting as soon as possible by calling (623) 236-7573.

Jaguar tracks are similar to mountain lion tracks. Front feet of the jaguar are larger than the hind feet (both pads and toes) and tend to be wider than mountain lion feet (measuring up to six inches). There is overlap in size between the two species however, therefore the tracks are often difficult to distinguish. Scats are also similar.

The Arizona Houndsmen have offered a reward of up to \$5,000 to any individual who provides information leading to the arrest and conviction of any person who intentionally kills a jaguar. If you believe that you have witnessed a violation, please notify Arizona Game and Fish Department (Operation Game Thief) at 1 (800) 352-0700.

Contact the Department About Damaged Water Developments

For five decades, wildlife water developments (catchments) have been providing a reliable source of water for game and nongame species throughout Arizona.

Water developments range from bedrock tinajas (potholes) modified to increase storage or reduce evaporation, to engineered designs with precipitation collection aprons or dams, storage tanks, or troughs. Many of these developments are maintained by the Department, however just as many are managed by the Bureau of Land Management, Forest Service, U.S. Fish and Wildlife, the military, and others.

Should you notice a wildlife water development leaking, damaged, or in need of repair, please contact the nearest Department office or the Development Branch at (623) 236-7485 at your earliest convenience. If possible, please record the GPS coordinates of the water development site or provide a simple directional map.

Thank you in advance for your support of Arizona's wildlife.

Common Violations While Hunting Big Game, Small Game And Migratory Birds

It is each hunter's responsibility to protect our hunting heritage. You can help ensure responsible hunting by reporting violations to our Operation Game Thief hotline 1 (800) 352-0700. Unfortunate incidents and oversights do occur. If you should find yourself in violation of any laws or rules while hunting please contact the Operation Game Thief hotline to report it. It certainly is more beneficial to report a violation yourself than have a Game Ranger discover it in the field, or have another party report it, and certainly more understandable to the judicial system and the Arizona Game and Fish Commission.

Take Wildlife Without A License

(A.R.S. 17-331) Page 99

In order to take any wildlife in Arizona, you must have a current year's hunting license in your possession. You should check your license every time that you go hunting, fishing or collecting. Also, you should sign your license and tag before hunting.

Possess Unlawfully Taken Wildlife

(A.R.S. 17-309 A 17) Page 99

Any wildlife that is unlawfully taken, may not

be legally possessed. So even though you may not have been involved in the illegal taking of wildlife, you cannot legally possess unlawfully taken wildlife or parts thereof.

Exceed Bag and/or Possession Limit

(A.R.S. 17-309 A 15 and 16) Page 99

Wildlife may only be taken as prescribed by the Arizona Game and Fish Commission Orders for bag and possession limits. Consult Commission Orders for specifics.

Improper Tagging of Big Game

(R12-4-302) Page 111

All big game taken shall be immediately tagged in accordance with the instructions on the back of the permit-tag and pursuant to Commission Rule, R12-4-302.

Obtain License or Permit By Fraud

(A.R.S. 17-341) Page 100

Only persons who have been a bona fide resident (pages 13 and 98) of Arizona for a minimum of six months, or members of the Armed Forces stationed in Arizona for a minimum of 30 days, may obtain resident licenses and permits. Factors that may establish residency would include most, if not all of the following: a resident is considered to be someone who primarily or permanently resides in Arizona, possesses an Arizona drivers license and registers their vehicles in Arizona, maintains a home in Arizona, votes in Arizona and pays Arizona resident income taxes. A person cannot be considered a resident of two states at the same time.

Take Wildlife During Closed Season, After Legal Hours or With Aid of Artificial Light

(A.R.S. 17-309 A 11 and 17-301 A) Page 99 and Page 98

Wildlife may only be taken during times prescribed by the Commission and closed season shall be in effect unless opened by Commission Order. Pay particular attention to 1/2 day dove seasons and review the Commission orders related to the species you are pursuing before leaving home. Use of spotlights to locate game is illegal if you have any weapons in your vehicle. If fear of theft is a concern, you should disable your firearm or bow and make it obvious that it is incapable of firing.

License Revocation

(A.R.S. 17-340) Page 100

You can have your license privileges revoked by the Commission for up to five years for a conviction of:

- unlawful taking, selling, bartering or possession of wildlife
- careless use of firearms resulting in human injury or death
- destroying or injuring livestock or crops while hunting or fishing
- acts of vandalism or littering while hunting or fishing
- knowingly allowing another person to use your big game tag
- unlawful entry on to closed area for purposes of taking wildlife
- unlawful posting of state or federal lands
- license fraud
- unlawful use of aircraft to take wildlife

Additional convictions may result in license privileges being revoked for longer periods up to permanently.

Civil Liability

(A.R.S. 17-314) Page 99

Under state law anyone who is found to have unlawfully wounded or killed, or unlawfully possessed any of the following wildlife may be subject to civil action by the Arizona Game and Fish Commission in the form of recovery of the following minimum sums (updated annually factoring in the current Consumer Price Index):

For each turkey or javelina.....\$500.00

For each bear, mountain lion, antelope or deer, other than trophy\$1,500.00

For each elk or eagle, other than trophy or endangered species\$2,500.00

For each predatory, fur-bearing or nongame animal\$250.00

For each small game or aquatic wildlife animal\$50.00

For each trophy or endangered species animal\$8,000.00

Common Violations While Hunting Big Game, Small Game And Migratory Birds

Examples are leaving all ammunition, arrows and/or barrels or bolts in camp. Hunters cannot use lighted sight pins or other artificial light sources to extend legal shooting hours.

Take/Hunt From A Vehicle

(A.R.S. 17-301 B, R12-4-319) Pages 98 and 115

No person may take wildlife from a motor vehicle (including watercraft and aircraft), except as permitted by Commission Order, and under the provisions of the Challenged Hunter Access Mobility Permit Commission Rule (R12-4-217). "Take," as defined by law, includes pursuing, shooting, hunting and killing wildlife. You are unlawfully using a vehicle to take wildlife if you intentionally drive around until you see the animal you wish to harvest and then make an attempt to take. "Road hunting" is illegal; so is pursuing wildlife with a vehicle, chasing or heading off moving wildlife with a vehicle, and driving off-road to get closer to wildlife. You do not have to shoot from the vehicle to be in violation.

Take Wildlife With Prohibited Device or By An Unlawful Method

*(A.R.S. 17-301.A; 17-309.A 6,10,19, and 21) Page 98 and Page 99
(R-12-4-303) Page 111, and (R-12-4-304) Page 111*

Wildlife may only be taken by a device or method as prescribed by the Commission. It is unlawful to take wildlife with a semi-automatic rifle with a magazine that holds more than 5 rounds. It is unlawful to take migratory game birds with an unplugged shotgun capable of holding more than three rounds.

Shoot Too Close To An Occupied Building or Residence

(A.R.S. 17-309 A 4) Page 99

Without the resident's permission, you may not discharge a firearm within 1/4 mile of an occupied residence while taking wildlife. All structures including barns, sheds and cabins should be assumed occupied. This is one of the most common violations during dove and quail seasons.

Littering While Taking Wildlife

(A.R.S. 17-309 A 9) Page 99

All hunters are responsible for cleaning up after themselves. All camp areas should be left clean. Shell casings and associated debris constitute litter and should be picked up and packed out. Also, all hunters are responsible for the proper care and disposal of their wildlife carcasses. Carcass debris should be disposed of according to local jurisdiction regulation. Please check with your local authorities for specific regulations and instructions.

Shoot Across Road

(A.R.S. 17-301 B) Page 98

No person may knowingly discharge any firearm or shoot any other device including bow and arrow upon, from, across, or into a maintained road or railway. It is advisable not to shoot from or across any road. Again, this is one of the most common violations during the dove season.

If not licensed for the year in which the applicable hunt will take place, the applicant shall purchase a license by completing the License Application portion of the Hunt Permit-tag Application Form, providing the applicant's name, Department identification number, home mailing address, class of license for which application is made, residency status, length of Arizona residency (if applicable), date of birth, sex, weight, height, and color of hair and eyes; and
5. If an applicant is younger than age 14, and is applying for a hunt other than big game, but is not required to have a license under A.R.S. § 17-335(B), the applicant shall indicate "juvenile" in the space provided for the license number on the Hunt Permit-tag Application Form.
- F. An applicant shall include as part of the hunt permit-tag application, the following fees as prescribed by R12-4-102:
 1. The fee for the applicable hunt permit-tag, unless the application is submitted electronically over the Internet or telephone;
 2. The permit application fee; and
 3. The license fee if the applicant has not previously purchased a license for the year in which the hunt takes place.
- G. An applicant shall enclose payment for a hunt permit-tag with a single hunt permit-tag application form, made payable in U.S. currency to the Arizona Game and Fish Department, by certified check, cashier's check, money order, or personal check. If applying electronically over the Internet or telephone, an applicant shall include payment by valid credit card as a part of the hunt permit-tag application.
- H. An applicant shall apply for a specific hunt or a bonus point by the current hunt number. If all hunts selected by the applicant are filled at the time the application is processed in the drawing, the Department shall deem the application unsuccessful, unless the application is for a bonus point.
- I. An applicant shall make all hunt choices for the same genus within one application.
- J. An applicant shall not include applications for different genera of wildlife in the same envelope.
- K. All members of a group shall apply for the same hunt numbers and in the same order of preference. The Department shall not issue a hunt permit-tag to any group member unless sufficient hunt permit-tags are available for all group members.
- L. An applicant shall submit only one valid application per genus of wildlife for any calendar year, except:
 1. If the bag limit is one per calendar year, an unsuccessful applicant may re-apply for remaining hunt permit-tags in unfilled hunt areas, as specified in the hunt permit-tag application schedule published annually by the Department.
 2. For genera that have multiple draws within a single calendar year, an individual who successfully draws a hunt permit-tag during an earlier season may apply for a later season for the same genus if the individual has not taken the bag limit for that genus during a preceding hunt in the same calendar year.
 3. If the bag limit is more than one per calendar year, an individual may apply as specified in the hunt permit-tag application schedule published annually by the Department for remaining hunt permit-tags in unfilled hunt areas.
- M. An individual shall not apply for a hunt permit-tag for Rocky Mountain bighorn sheep or desert bighorn sheep if that individual has met the lifetime bag limit for that sub-species. An individual shall not apply for a hunt permit-tag for buffalo if the individual has met the lifetime bag limit for that species.
- N. To participate in the bonus point system, an applicant shall comply with R12-4-107.

- O. The Department shall reject as invalid a Hunt Permit-tag Application Form not prepared or submitted in accordance with this Section or not prepared in a legible manner. If the Department rejects an application from any member of a group, the Department shall reject all applications from the group.
- P. Any hunt permit-tag issued for an application that is subsequently found not to be in accordance with this Section is invalid.
- Q. The Department or its authorized agent shall mail hunt permit-tags to successful applicants. The Department shall return application overpayments to the applicant designated "A" on the Hunt Permit-tag Application Form. Permit application fees shall not be refunded. License fees submitted with a valid application for a bonus point shall not be refunded.
- R. If the Director determines that Department error caused an individual to submit an invalid application for a hunt permit-tag, prevented an individual from lawfully submitting an application, caused the rejection of an application for a hunt permit-tag, or caused the denial of a hunt permit-tag, the Director may authorize an additional hunt permit-tag if the issuance of an additional hunt permit-tag will have no significant impact on the wildlife population to be hunted and the application for the hunt permit-tag would have otherwise been successful based on its random number. The Director may also authorize the awarding of a bonus point to correct the error if a hunt permit-tag is not issued. If the Director determines that Department error caused the failure to apply an applicant's bonus points to an application, the Director may authorize an additional hunt permit-tag to correct the error, if the issuance of an additional hunt permit-tag will have no significant impact on the wildlife population to be hunted. The Director may also authorize the awarding of a bonus point to correct the error if a hunt permit-tag is not issued. An individual who is denied a hunt permit-tag or a bonus point under this procedure may appeal to the Commission as provided under A.R.S. Title 41, Chapter 6, Article 10.

R12-4-107

Bonus Point System

- A. For the purpose of this Section, the following definitions apply:
 1. "Bonus point hunt number" means the hunt number assigned by the Commission in a Commission Order for use by an applicant applying only for a bonus point for a genus identified in this Section; and
 2. "Loyalty bonus point" means a bonus point awarded to an individual who has submitted a valid application for a hunt permit-tag or a bonus point for a specific genus identified in subsection (B) at least once annually for a consecutive five-year period.
- B. The bonus point system grants an individual one entry in each drawing for antelope, bear, bighorn sheep, buffalo, deer, elk, javelina, or turkey for each bonus point that individual has accumulated under this Section. Each bonus point entry is in addition to the entry normally granted by R12-4-104. When processing "group" applications, as defined in R12-4-104, the Department shall use the average number of bonus points accumulated by the individuals in the group, rounded to the nearest whole number. If the average is equal to or greater than .5, the total will be rounded to the next higher number.
- C. The Department shall award one bonus point to an applicant who submits a valid Hunt Permit-tag Application Form if all of the following apply:
 1. The application is unsuccessful in the drawing or the application is for a bonus point only;
 2. The application is not for a hunt permit-tag left over after the drawing and available on a first-come, first-served basis as prescribed in R12-4-114; and
 3. The applicant, before the drawing, purchases a hunt-

Arizona Game and Fish Commission Rules About Hunting

ing license valid for the year in which the hunt takes place. The applicant shall either provide the hunting license number on the application, or submit an application and fees for the license with the Hunt Permit-tag Application Form.

- D. An applicant who purchases a bonus point only shall:
1. Submit a valid Hunt Permit-tag Application Form, as prescribed in R12-4-104, with the Commission-assigned bonus point hunt number for the particular genus as the first choice hunt number on the application. Placing the bonus point only hunt number as a choice other than the first choice or including any other hunt number on the application will result in rejection of the application;
 2. Include with the application, payment for the hunt permit-tag application fee and a fee for a hunting license if the applicant does not already possess a license valid for the year for which the draw is conducted (If an applicant who purchases a bonus point has not already purchased a license for the year for which the applicant is applying, the applicant shall also submit all applicable information designated under R12-4-104(E)(4). If an applicant who purchases a bonus point has already purchased a license for the year for which the applicant is applying, the applicant shall also submit the number of the applicant's license); and
 3. Submit only one Hunt Permit-tag Application Form for the same genus for each season that bonus points are issued for that genus.
- E. With the exception of the hunter education bonus point, each bonus point accumulated is valid only for the genus designated on the Hunt Permit-tag Application Form.
- F. Except for a permanent bonus point awarded for hunter education or loyalty bonus points that are accrued and forfeited as prescribed in subsection (K), all of an individual's accumulated bonus points for a genus are forfeited if:
1. The individual is issued a hunt permit-tag for that genus in a computer drawing; or
 2. The individual fails to submit a Hunt Permit-tag Application Form for that genus for five consecutive years.
- G. An applicant issued a first-come, first-served hunt permit-tag under R12-4-114(C)(2)(d) after the computer drawing does not lose bonus points for that genus, and a valid but unsuccessful applicant for a first-come, first-served hunt permit-tag remaining after the computer drawing does not gain a bonus point.
- H. The Department shall award one permanent bonus point for each genus upon an individual's first graduation from the Department's Arizona Hunter Education Course or for serving as a Department hunter education instructor.
1. The Department shall credit an individual who graduated after January 1, 1980, but before January 1, 1991, or an individual certified by the Department as an active hunter education instructor after January 1, 1980, with one permanent bonus point for each genus if the individual provides the following information on a form available from the Department: Department identification number; name; address; residency status, and length of Arizona residency, if applicable; date of birth; sex; weight; height; color of hair and eyes; and, for an individual other than an instructor, the month and year of graduation from the Department's Arizona Hunter Education Course.
 2. An instructor or an individual who has graduated from the Department's Arizona Hunter Education Course shall submit the required form 30 days before a drawing's application deadline, as specified in the hunt permit-tag application schedule, in order for the bonus point to be counted by the Department in that drawing.
- I. The Department shall make an applicant's total number of accumulated bonus points available on the Department's application web site or IVR telephone system. If

the applicant disagrees with the total, the applicant may request from the Department proof of compliance with this Section to prove Department error. In the event of an error, the Department shall correct the applicant's record.

- J. The Department shall credit bonus points under an applicant's Department identification number for the genus on the application. The Department shall not transfer bonus points between individuals or genera.
- K. The following provisions apply to the loyalty bonus point program:
1. The Department shall award a loyalty bonus point if an applicant submits a valid application at least once a year for a hunt permit-tag or a bonus point for a specific genus consecutively for a five-year period.
 2. An applicant retains a loyalty bonus point once accrued as long as the applicant submits a valid application annually for a hunt permit-tag or a bonus point for the genus for which the loyalty bonus point was accrued.
 3. If an applicant who has accrued a loyalty bonus point fails to apply in any calendar year for a hunt permit-tag for the genus for which the loyalty bonus point was accrued, the applicant's loyalty bonus point for that genus is forfeited.
 4. For the purposes of the loyalty bonus point program, year one of the calculation of consecutive application years is 2001, and the Department shall award a loyalty bonus point to an applicant who qualifies for the loyalty bonus point on or after the effective date of this Section.
 5. A loyalty bonus point is accrued in addition to all other bonus points.
- L. The Department shall reinstate any bonus points forfeited for a successful hunt permit-tag application for military personnel, military reserve personnel, national guard personnel, or public agency employees who are unable to use the hunt permit-tag due to mobilization, activation, or required duty in response to a declared national or state emergency, or required duty in response to an action by the President, Congress, or a governor of the United States or its territories. Under A.R.S. § 17-332(E), no refunds for a license or hunt permit-tag will be issued to an applicant who applies for reinstatement of bonus points under this subsection. To request that forfeited bonus points be reinstated under these circumstances, an applicant shall submit all of the following to the Arizona Game and Fish Department, Draw Section, 2221 W. Greenway Rd., Phoenix, AZ 85025:
1. A letter from the applicant requesting reinstatement of bonus points;
 2. The hunt number for which the hunt permit-tag is valid;
 3. Evidence of mobilization or duty status, such as a letter from the public agency or official orders;
 4. An official declaration of a state of emergency from the public agency or authority making the declaration of emergency, if applicable; and
 5. The valid, unused hunt permit-tag, which must be received before the beginning date of the hunt for which the hunt permit-tag is valid, or evidence of mobilization or activation that precluded the applicant from submitting the tag before the beginning date of the hunt.

If immediate corrective action is not

taken, a representative of the Department may remove any unlawful posting and remove any lock, fence, or other obstacle that unlawfully blocks access to state lands. In addition, the Department may take appropriate legal action to recover expenses incurred in the removal of any unlawful posting or obstacle that blocks access to state land.

- C. The provisions of this Section do not allow any individual to trespass upon private land to gain access to state land.
- D. An individual may post state lands within 1/4 mile of any occupied residence, cabin, lodge, or other building and lands within corrals, feed lots, or holding pens containing concentrations of livestock other than for grazing purposes as closed to hunting, fishing, or trapping without further action by the Commission.
- E. An individual may post state lands other than those referred to in subsection (D) as closed to hunting, fishing, or trapping only if the individual has obtained a permit from the Commission, and the Commission determines that the closing is necessary:
 1. Because the taking of wildlife constitutes an unusual hazard to permitted users;
 2. To prevent unreasonable destruction of plant life or habitat; or
 3. For proper resource conservation, use, or protection, including but not limited to high fire danger, excessive interference with mineral development, developed agricultural land, or timber or livestock operations.
- F. An individual shall submit an application for posting state land to prohibit hunting, fishing, or trapping under subsection (E), or to close an existing road under subsection (J), as required by R12-4-610. If an application to close state land to hunting, fishing, or trapping is made by an individual other than the state land lessee, the Department shall provide notice to the lessee and the State Land Commissioner before the Commission considers the application. The state land lessee or the State Land Commissioner shall file any objections in writing within 30 days after receipt of notice, after which the matter shall be submitted to the Commission for determination.
- G. An individual may use a vehicle on or off a road to pick up lawfully taken big game animals.
- H. The closing of state land to hunting, fishing, or trapping shall not restrict any other permitted use of the land.
- I. State trust land may be posted with signs that read "State Land No Trespassing" but such posting shall not prohibit access to such land by any individual lawfully taking or retrieving wildlife.
- J. The Commission may grant permission to lock or obliterate a gate or close a road or trail that provides legally available access to state lands for licensed hunters and fishermen if access to such lands is provided by a reasonable alternate route. Under R12-4-610, the Director may grant a permit to a state land lessee to temporarily lock a gate or close an existing road that provides access to state lands if the taking of wildlife will cause unreasonable interference during a critical livestock or commercial operation. This permit shall not exceed 30 days. Applications for permits for more than 30 days shall be submitted to the Commission for approval. If a permit is issued to temporarily close a road or gate, a copy of the permit shall be posted at the point of the closure during the period of the closure.
- K. When hunting, fishing, or trapping on state land, a license holder shall not:
 1. Break or remove any lock or cut any fence to gain access to state land;
 2. Open and not immediately close a gate;
 3. Intentionally or wantonly destroy, deface, injure, remove, or disturb any building, sign, equipment, marker, or other property;
 4. Harvest or remove any vegetative or mineral resources or object of archaeological, historic, or scientific interest;

5. Appropriate, mutilate, deface, or destroy any natural feature, object of natural beauty, antiquity, or other public or private property;
6. Dig, remove, or destroy any tree or shrub;

Diseased, Injured, or Chemically Immobilized Wildlife

- A. The Director may authorize Department employees to condemn the carcass of a lawfully taken and lawfully possessed diseased, injured, or chemically immobilized wildlife taken under any permit tag that is, in the opinion of the employee, unfit for human consumption, if the individual who took the wildlife requests it and this condition was not created by the actions of the individual who took the wildlife. A Department employee may condemn wildlife that is chemically immobilized if the wildlife was taken during the established withdrawal period of that immobilizing drug.
- B. The individual who took the wildlife shall surrender the entire condemned wildlife carcass and any parts thereof to the Department employee.
- C. After condemnation and surrender of the wildlife, the Department employee shall provide written authorization to the individual who took the wildlife to purchase and use a duplicate tag. The license holder may purchase the tag from any dealer where the tag is available. The license dealer shall forward the written authorization to the Department with the report of the tag sale.

Issuance of Nonpermit-tags and Hunt Permit-tags

- A. In accordance with A.R.S. § 17-332 and the provisions of this Section, the Department shall annually provide numbered tags for sale to the public. The Department shall ensure that each tag includes a transportation and shipping permit as prescribed in A.R.S. §§ 17-332 and 17-371, and that each tag is made of tear-resistant material with an adhesive back covered by a detachable paper backing and clearly identifies the animal for which the tag is valid.
- B. If the Commission establishes a big game season for which a hunt number is not assigned, the Department or its authorized agent, or both, shall sell nonpermit-tags.
 1. To obtain a nonpermit-tag, an applicant shall provide to a license dealer or Department office the applicant's name, home mailing address, and Department identification number.
 2. An applicant shall not apply for or obtain nonpermit-tags in excess of the bag limit prescribed by the Commission when it established the season for which the nonpermit-tags are valid.
- C. If the number of hunt permits for a species in a particular hunt area must be limited, a Commission Order establishes a hunt number for that hunt area, and a hunt

Arizona Game and Fish Commission Rules About Hunting

permit-tag is required to take the species in that hunt area.

1. To apply for a hunt permit-tag, an applicant shall submit an application under R12-4-104.
2. The Department shall use the following procedure to determine whether a hunt permit-tag will be issued to an applicant:
 - a. The Department shall reserve a maximum of 20% of the hunt permit-tags for each hunt number for antelope, bear, deer, elk, javelina, and turkey to issue to individuals and groups that have bonus points. The Department shall reserve a maximum of 20% of the hunt permit-tags for all hunt numbers combined statewide for bighorn sheep and buffalo to issue to individuals and groups that have bonus points.
 - b. The Department shall issue the reserved hunt permit-tags for hunt numbers designated by eligible applicants as their first or second choices. The Department shall issue the reserved hunt permit-tags by random selection:
 - i. First, to eligible applicants with the highest number of bonus points for that genus;
 - ii. Next, if there are reserved hunt permit-tags remaining, to eligible applicants with the next highest number of bonus points for that genus; and
 - iii. If there are still tags remaining, to the next eligible applicants with the next highest number of bonus points; continuing in the same manner until all of the reserved tags have been issued or until there are no more applicants for that hunt number who have bonus points.
 - c. The Department shall ensure that the first selection from all unreserved hunt permit-tags is by random drawing.
 - d. If the bag limit established by Commission Order is more than one per calendar year, or if there are hunt permit-tags remaining unissued after the random drawings, the Department shall ensure that these hunt permit-tags are available on a set date on a first-come, first-served basis as specified in the hunt permit-tag application schedule published annually.
- D. The Department shall not make available more than one hunt permit-tag or 10% of the total hunt permit-tags, whichever is greater, for bighorn sheep or buffalo in any draw to nonresidents. The Department shall not make available more than 50% nor more than two bighorn sheep or buffalo hunt permit-tags of the total in any hunt number to nonresidents.
- E. The Department shall not make available more than 10%, rounded down, of the total hunt permit-tags in any hunt number to nonresidents for antelope, antlered deer, bull elk, javelina, or turkey. If a hunt number for antelope, antlered deer, bull elk, javelina or turkey has ten hunt permit-tags or fewer, no more than one hunt permit-tag will be made available to a nonresident, except that if a hunt number has only one hunt permit-tag, that tag shall only be available to a resident.
- F. Any cap established under this Section applies only to hunt permit-tags issued by random drawing under subsections (C)(2)(b) and (c).
3. "Hunter pool" means all individuals who have submitted an application for a supplemental hunt; and
3. "Supplemental hunt" means a season established by the Commission for the following purposes:
 - a. Take of depredating wildlife under A.R.S. § 17-239;
 - b. Take of wildlife under an Emergency Season if the Commission adopts, amends, or repeals a Commission Order for reasons constituting an immediate threat to the health, safety, or management of wildlife or its habitat or to public health or safety; or
 - c. Take of wildlife under a population management hunt if the Commission has prescribed restricted nonpermit-tags by Commission Order for the purpose of meeting management objectives because regular seasons are not, have not been, or will not be sufficient or effective to achieve management objectives.
- B. For the purposes of authorizing a population management hunt, the Commission through Commission Order shall open a season or seasons and prescribe a maximum number of restricted nonpermit-tags that the Director may issue under this Section.
- C. The Director shall implement a population management hunt under the open season or seasons prescribed in subsection (B) if the Director finds that:
 1. Regular seasons have not met or will not meet management objectives;
 2. Take of wildlife is necessary to meet management objectives; and
 3. Issuance of a specific number of restricted nonpermit-tags is likely to meet management objectives.
- D. To implement a population management hunt under subsection (B), the Director shall do the following:
 1. Select season dates, within the range of dates prescribed by the Commission through Commission Order;
 2. Select specific hunt areas, within the range of hunt areas prescribed by the Commission through Commission Order;
 3. Select the legal animal that may be taken from the list of legal animals prescribed by the Commission through Commission Order;
 4. Determine the number of restricted nonpermit-tags that will be issued from the maximum number of tags prescribed by the Commission through Commission Order; and
 5. Reduce restricted nonpermit-tag fees up to 75% if the normal fee structure will not generate adequate participation from either the hunter pool or hunt permit-tag holders under subsection (J).
- E. The Director shall not issue more restricted nonpermit-tags than the maximum number prescribed by the Commission through Commission Order.
- F. To participate in a supplemental hunt, an individual shall obtain a restricted non-permit tag as prescribed by this Section. A restricted non-permit tag is valid only for the supplemental hunt for which it is issued.
- G. If the season dates and open areas of a supplemental hunt prescribed by the Commission through Commission Order exactly match the season dates and open areas of another big game animal for which a hunt number is assigned and hunt permit-tags are issued through the draw, the Department shall make the restricted nonpermit-tags available only to holders of the hunt permit-tags, and not the hunter pool.
- H. To obtain a restricted nonpermit-tag under subsection (G), an applicant shall provide to a Department office the applicant's name, address, Department identification number, and hunt permit-tag number on a form prescribed by the Department.
 - a. The applicant shall provide verification that the applicant legally obtained the hunt permit-tag

- I. The Department or its authorized agent shall maintain a hunter pool for supplemental hunts and shall randomly select applicants from the hunter pool for participation in a supplemental hunt, if the season dates and open areas of the supplemental hunt do not exactly match the season dates and open areas of another big game animal for which a hunt number is assigned and hunt permit-tags are issued through the draw.
- J. When issuing restricted nonpermit-tags to the hunter pool, the Department or its authorized agent shall randomly select applicants from the hunter pool. The Department or its authorized agent shall attempt to contact each randomly-selected applicant by telephone at least three times during a 24-hour period. If an applicant cannot be contacted or cannot participate in the supplemental hunt, the Department or its authorized agent shall return the application to the hunter pool and draw another application. The Department or its authorized agent shall draw no more applications after the number of restricted nonpermit-tags prescribed in subsection (D)(4) has been issued.
- K. The Department shall purge and renew the hunter pool annually.

The Department or its authorized agent shall remove from the hunter pool the application of any successful applicant who does not purchase a tag after being contacted and agreeing to purchase the tag.
- Q. An individual who participates in a supplemental hunt through the hunter pool shall be removed from the supplemental hunter pool for the genus for which the individual participated.
